

“There Is No Evidence for God or the Bible”

I read your article about the [evidence for God's existence](#). Although it was an interesting article, I didn't really see any evidence of God's existence in the article. I am a believer in God's existence. However, my belief is strictly faith based. I suppose it is possible that God does not exist. I choose to believe that he does. There are many things in the world we live in and our Universe that are truly amazing and unexplainable. But just because something is strange, amazing, awesome, mind boggling or unexplainable, does not mean it is evidence of God's existence.

Just like the existence of God cannot be proven, the Holy Bible itself can not be proven that it is the inspired word of God. There simply is no evidence. It is faith that people have in that it is the word of God. It can never be proven. This is very hard for many Christians to accept, but it is the undeniable truth. You believe because you choose to believe and for no other reason.

I think perhaps you misunderstand the difference between evidence and proof. I agree with you that we do not have proof of God's existence or that the Bible is the Word of God. However, what we do have is very powerful evidence that choosing to put our trust in God in His word is a reasonable choice.

Recently my husband was up on the roof of our house putting up Christmas lights. From inside the house, I heard noises above my head that sounded like footsteps. And when I looked out the window, I saw a man's shadow on the ground that indicated there was a person on the roof. Since Ray had told me he was going up on the roof, I believed he was up there. Could I prove it from inside the house? No, but it was completely

reasonable for me to look at the evidence and conclude my husband was putting up Christmas lights.

Sometimes people look evidence full in the face and then deny it. Our founder, Jimmy Williams, is fond of telling the story of the man who went to a psychiatrist convinced that he was dead. The psychiatrist was unsuccessful at talking him out of his illusion. Finally he asked him, "Do dead men bleed?" The patient said no, they don't. The psychiatrist pulled out his Swiss army knife, reached over and nicked the man's finger. Amazed, the patient exclaimed, "Well, how about that! Dead men DO bleed!"

See the difference between evidence and proof?
