

About the Probe Podcast

Now you don't have to come to our website to get our radio broadcasts! If you have an iPod or other mp3 player, you can subscribe to our podcasts and get a week's worth of radio programs in one 13-minute MP3 download. You can also find us on iTunes.com and Godcast1000 . . . just do a search for "Probe Ministries." (Or click on the links, which will take you straight to the Probe podcast on those sites.) If you don't have an iPod or other mp3 player, you can download a free podcast receiver program from the internet that will allow you to listen to automatically downloaded programs on your computer. We like [Juice](#).

In your podcast program, look for the place to add new subscriptions. Right click on the **XML** and copy the feed URL to your podcast app or program of choice. It will look like this: http://www.ministeriosprobe.org/probe_podcast.xml

If you would like to automatically get updates of our website articles, click [here](#).
