Marianne Williamson

Marianne Williamson, contender for the 2020 Democratic presidential candidate, has been on Probe’s radar for over ten years. As Oprah’s spiritual advisor and proponent of the New Age “A Course in Miracles,” she is a false teacher according to biblical standards.

Are Surveys Fake News?

On March 7, 2019, Probe’s Senior VP Steve Cable gave a one-hour presentation drawing on his decades of statistical research and insight to probe deeply into the trustworthiness of news containing references to surveys. In this message he shows why we should remain skeptical of what surveys purportedly indicate. Sometimes the actual results are directly opposite of what is claimed.

Social Media, You and Your Family
Probe Ministries hosted a presentation by Kerby Anderson on “Social Media, You and Your Family” on October 16, 2018 at the Hope Center in Plano, Texas. All attendees received a free copy of the new book *Arts, Media, and Culture: A Biblical Point of View*. (You can order it from our online store here.)

You can download a recording of Kerby’s message here.

We are all the beneficiaries of the information on the Internet. But scientists have also been able to document that our digital devices and social media are altering the way we think and altering our ability to concentrate.

As one psychologist at Tufts University explains, “We are not only what we read. We are how we read.” The style of reading on the Internet is different and profoundly changing the way we read and acquire information. Our brains are able to reprogram themselves on the fly through a process called “neuroplasticity.”

There is a crucial need for Christians to evaluate the impact of media in their lives. We need to develop discernment and pass those biblical principles to our children and grandchildren.

The new media represents an even greater threat to our discernment processes and can easily conform us to the world (Romans 12:2). Media is powerful tool to conform us to group think and thus to a secular worldview taking us captive to the false philosophies of the world (Colossians 2:8).

Let’s look at how we can harness social media to use for good while, at the same time, protecting ourselves and our children from potentially harmful effects.
Dr. Ray Bohlin Publicly Debates in Belarus

Something wonderful and heretofore-unseen happened in March 2018 in the formerly Communist country of Belarus, part of the Soviet Union until 1990. The capital city of Minsk was the site of a public debate between two scientists: Dr. Mikhail Gelfand, an atheist biology professor at Russia’s Moscow State University, and Probe’s own Dr. Ray Bohlin, a Ph.D. in molecular biology.

Ray had submitted a number of intelligent design-related topics to Dr. Gelfand who refused them all, deciding instead on the topic “Evolution or Creationism?” It was clear he was expecting a religious rather than a scientific argument from Ray, who presented “Is intelligent Design Science?” with the primary evidence that the DNA genetic code requires an intelligence. Dr. Gelfand did not respond to any of Ray’s points.

Following their presentations, the debaters responded for an hour to written questions submitted by the audience. One question was, “Would either of you consider changing your mind if shown sufficient evidence of the other side?” With clear contempt, Dr. Gelfand dismissed the possibility that there was evidence for anything other than evolution. Ray related how, in his graduate studies in evolutionary biology, he continually asked, “Show me the evidence for evolution. Please convince me.” By the end of his studies, he was more of a skeptic of evolution than ever before.

Concerned about making his flight back to Moscow, Dr. Gelfand gathered up his things. He was very surprised when Ray came over and,
smiling, shook his hand after having been insulted several times during the debate. Christian kindness and compassion is its own kind of culture.

Following the debate, 55% of participants in an online vote chose Ray as the winner. The debate was uploaded to Russian YouTube with over 1000 views that weekend (Link to English YouTube video is here). There was quite a bit of social media buzz about it, including requests to bring Ray back to Belarus in November for another debate.

The following weekend, along with his Probe colleague Todd Kappelman, Ray traveled several hours by train to Brest (on the border of Belarus and Poland) for another debate, this time with a professor of the history of Slavic people, Dr. Alexander Svirid. In his presentation Ray pointed out that the fossil evidence for human evolution is sparse and open to many interpretations. His opponent was not able to refute what Ray said, but suggested that the way information has “evolved” from the early computer software to what we have today is evidence of evolution. Ray pointed out that it takes an intelligent mind to rewrite and update software. Dr. Svirid was quite gracious and complimentary of Ray, remarking that “each of us would have been a good student of the other.” (Link is here.)

Monday through Friday for two weeks, Ray and Todd spent time with friends and potential church leaders. (Feel free to ask us for more information about that.)

**Churches**

This was Ray’s 14th trip to Belarus, and every time he goes, he speaks in the churches of people who have become friends. The first Sunday (of three), he preached in a church outside Minsk where one of his excellent translators is a teaching elder. He preached on Romans 1:18-20 in every church he spoke at, because after the previous day’s debate, many young people asked why the belief in creation mattered. Drawing on his worldview perspective sharpened by 40+ years of speaking and writing for Probe, he said that if there is no God, there is no purpose or meaning to any living thing—especially humans. Romans 1 assures us that we all know there is a Creator, so maybe the Creator’s intended purpose and meaning for us gives us worth and value. This is especially good news in a country that was recently Communist, which denies the worth and value of people. Questions continued through lunch, turning Sunday into another four-hour marathon like the (debate) day before.

The second weekend was jam-packed with ministry opportunities. On Friday night, Ray answered questions at an English club (for those working on learning to speak English). He heard the one question he can always count on: “What do you like about Belarus?” People always love his go-to answer: “Chocolate!”

On Saturday afternoon, he spoke at a student conference sponsored by CRU (formerly known as Campus Crusade for Christ). Both the Christians and the seekers in attendance were interested in hearing Todd address problems and issues in technology, and Ray was asked to address the problem of evil. Todd and Ray, along with their translator Sasha and his wife, took the train to Brest, arriving very late at night.
The next morning was the second debate, arranged by the pastor of Brest Bible Church, who had seen the YouTube videos of Ray’s 2016 debate and 2017 lecture, and really wanted him to come to his city.

The third weekend, with both men very tired, meant being driven to Brest and back the same day, to speak at a conference in another church. Todd, who doesn’t use a cell phone or wear a watch, spoke to the issues and challenges of technology, particularly smartphones and computers. Ray, playing “good cop” to Todd’s “bad cop,” explained how helpful technology is to him as he tries to explain science to students and various audiences, especially the visual component of technology. Powerpoint is invaluable to him for showing graphs, tables and pictures, as well as showing videos using animation to demonstrate molecular machines inside the cell. Getting personal, he also explained that his wife Sue, a polio survivor who is no longer able to walk (and thus can no longer accompany him to handicap-unfriendly Belarus), needs the technology of her scooter to be mobile at all. Otherwise she would be bedridden, or unable to leave their home—which is what happens to most disabled Belarusians.

On Sunday, their last day, both Todd and Ray gave a short 20-minute talk in the small house church of a pastor and his wife who have become good friends of the Bohlins. That night at another small church, Ray answered lots of questions about the Minsk debate.

He was especially glad for the question, “Why bother?” Why, indeed, would anyone from Probe go 5500 miles to the former Soviet Union, giving time, energy and passion to the point of utter exhaustion, year after year?
It’s an opportunity to provide unbelievers with a reasoned, rational response to evolution.

It’s an opportunity to model to Christians how to engage in controversial issues without defensiveness or anger.

We pray something sticks, planting a “pebble in people’s shoes,” so to speak, sowing seeds of new information and a different perspective by asking questions for which the listeners have no answers. It starts a journey.

For over forty years, that’s what Probe Ministries has been doing. Sowing seeds, asking questions, planting pebbles in people’s shoes so they think.

In 1973, when Probe was founded, there was no glimmer of hope for debates like these behind the Iron Curtain, much less in the Soviet Union. But look what God did in March 2018! There is a great hunger for honest answers to honest questions in Belarus. The debates are possible because they are about science, not religion . . . because true science—the study of what God created—is the truth that points to Romans 1.

And for that, we thank and praise God.

Note: The funding for this trip is several thousand dollars short of what was needed to cover expenses. There is still an opportunity to invest eternally in what God is doing through Probe in Belarus! You can donate here and designate Dr. Ray Bohlin. All gifts will receive a tax-deductible receipt.

Probe Responses to “The Shack”

Probe staff members are not unanimous in their responses to The Shack. Sue Bohlin enjoyed it as “a good book with problems,” and former staffer Pat Zukeran sees value in the book but is concerned enough about the theological problems to give it a “thumbs down.” Those of us who have read the book have a difference of opinion with each other, but we remain friendly and mutually respectful even as we disagree.

The movie is faithful enough to the book that our takeaways still stand.

Politically Incorrect Guide to Islam and Terrorism

Although the war on terror has become a household subject since September 11, 2001, we still hear many politically correct phrases. Do Muslims and Christians worship the same God? Is Islam a religion of peace? What is the true meaning of jihad? Kerby Anderson offers an honest, biblically-based discussion of Islam and terrorism.
