

“How Do Dinosaurs Fit Into the Bible?”

My nephew and I recently saw a giant T-rex skeleton on exhibit. He was so fascinated and started asking a lot of questions. It really made me wonder, How do dinosaurs fit into the biblical story? There is no denying they exist, but when and where and why did God make them and then take them away? I want to make sure I am prepared to answer this question if he ever asks.

My husband and I have an article “How to Talk to Your Kids About Creation and Evolution,” where we discuss dinosaurs in this www.probe.org/how-to-talk-to-your-kids-about-evolution-and-creation/#dinosaurs section:

Also, please read Ray’s article “Christian Views of Science and Earth History,” [www.probe.org/christian-views-of-science-and-earth-history/] which covers the three perspectives on the age of the earth that most Christians hold. From a young earth perspective, dinosaurs existed before the flood (Noah probably would have taken juveniles on the ark) and likely went extinct after the flood because there wasn’t sufficient food to support their large body size. From an old earth perspective, dinosaurs died out 65 million years ago at the end of the Cretaceous Period and so there is no reinterpreting of anything. They don’t appear in the biblical account because by the time God created Adam and Eve, they had been gone for millions of years.

Hope you find this helpful.
