

Christians in the World

Don Closson looks at three books on how to live the Christian life in 21st century America: Radical, The Next Christians, and To Change the World.

Introduction

Have you ever heard a sermon that tried to convince you that our earthly possessions should be looked at more like a hotel room rather than a permanent home? The point being that earth is a nice place to visit, but it's not a believer's final destination.

As aliens and strangers, our real residence is with God which usually implies a heavenly spiritual existence that is completely foreign to our current one. In a bit of a twist, a recent article in *Christianity Today* argued that most evangelicals have things backwards. We are wrong if we think that at Christ's return the wicked will be "left behind" and the righteous will be taken away to a heavenly abode. It's the wicked who will be removed while the righteous remain on earth. The author's conclusion is that we should be more caring about this world because it, not heaven, will be our eternal home.

How we view "final things" or the "end times" impacts how we live today. There is a heated debate going on about the priorities of those who desire to live out a biblical worldview. Should we be focused on restoring this world, redeeming it for God, or on offering the lifeboat of salvation in order to save some from impending destruction along with the rest of the cosmos? Are we to be mostly about creating a restored culture through our Spirit empowered efforts, or are we seeking salvation for a redeemed people leaving restoration of the world to special acts of God?

In this article I will focus on three popular books that offer

different perspectives on how Christians should prioritize their lives: *Radical* by David Platt, a mega-church pastor from Birmingham, Alabama; *The Next Christians* by Gabe Lyons, a conference speaker who has created an organization to encourage dialogue about the purpose of the church; and *To Change the World* by James Hunter, the lone academic, a professor of religion, culture, and social theory at the University of Virginia.

Platt's book is simple and straightforward. He tells his story mostly by giving examples of people in his church who were radicalized by the gospel. Lyons' book is a polemic against what he calls a gospel that only tells half of God's story. Hunter gives us a scholarly tome, calling Christians to humility when it comes to changing the culture in which we dwell. Although these books are different in significant ways, they all present an argument against the so-called American dream of runaway materialism and extreme individualism.

Three different books, espousing a similar message, told with both passion and thoughtfulness. Join me as we consider how Christians are to dwell on earth as aliens and strangers.

Becoming a Radical

The strength of David Platt's book *Radical* is its simplicity. He pleads with us to believe what Jesus says and then to obey it. But like most things in life, his simple admonition hides nuances and assumptions that beg further explanation.

Platt fills his book with example after example of Christians making radical life decisions as they reject both the American dream and the typical American way of doing church. He argues that "[W]e as Christ followers in American churches have embraced values and ideas that are not only unbiblical but that actually contradict the gospel we claim to believe."[^{\[1\]}](#) After introducing himself as one of the youngest pastors to

lead a mega-church, he admits that the “bigger-is-better” tendency in our churches is hard to support in Scripture.

Platt’s concerns are worthy of much soul searching and careful interpretation of God’s Word. But about halfway through the book I found myself both attracted to, and frustrated by, the many stories of life change among Platt’s congregants as well as his own struggles over how to lead his church in a way that is Christ honoring. For example, Platt’s discussion of Luke 9 results in this sentence: “We *do* have to give up everything we have to follow Jesus. We *do* have to love him in a way that makes our closest relationships in this world look like hate. And it is entirely possible that he *will* tell us to sell everything we have and give it to the poor.”[\[2\]](#) Unfortunately, when I looked for principles to know when and to what extent Jesus is asking me to do these things, I didn’t find that Platt offered any.

Platt leaves little room for interpretation when it comes to the words of Jesus. Is it possible that Jesus used rabbinic hyperbole or exaggeration common to the Jewish teachers of his day when making his more drastic comments about holy living? Even though Platt occasionally tempers his remarks with an “I don’t have all the answers” or “I have more questions than answers,” he writes as if his reading of the text is obvious and conclusive.[\[3\]](#)

Platt’s book *Radical* is intended to shock culturally captive Christians out of their American Dream stupor and to become serious Christ followers. His one-year dare at the end includes activities from which all believers would benefit. We should be praying for the entire world, reading through the entire Word, sacrificing our money for Kingdom purposes, reaching out to those in other cultural settings, and committing ourselves to multiplying church communities. I just wish that Platt had given us a little more nuanced guidance as to when and to what extent Christians should live a radical life.

Restoring Eden

Of the three books we are examining in this article, I anticipated the arrival of Gabe Lyons' book *The Next Christians* the most. I had read glowing endorsements and was hoping not to be disappointed.

The first of three sections in the book describes how the world has changed in its perception of Christianity. Although there is much good information here, Lyons resorts to the phrase "perfect storm" once too often in describing our current cultural milieu. He is right to describe attitudes towards believers in post-Christian America as mostly negative, but I am cautious about his complaint that our situation today is somehow unique.[{4}](#)

Lyons describes the church's response to social change as either separatist or cultural. The separatists are characterized by judgmental withdrawal from society, aggressively defending a Christian America that no longer exists. They reduce the Christian's task to saving a few souls via evangelism in ways often offensive to our pluralistic society. It's not a pretty picture. According to Lyons, we are far too influenced by the remnants of the Fundamentalist movement that did battle with modernism at the beginning of the last century.

Cultural Christians seek to blend into the culture rather than judge it, and define the Christian life as primarily doing kind things for others. These self-identified Christians place tolerance high on their list of virtues and are working diligently to avoid topics or actions that might alienate their neighbors. Lyons argues that they have conformed to the culture in a way that relinquishes any hope of having significant impact.

Lyons endorses a third category which he calls *restorers*. He describes these people as those who "envision the world as it

was meant to be and they work toward that vision. Restorers seek to mend earth's brokenness."[{5}](#) They are optimistic, and see "that God is on the move—doing something unique in our time."[{6}](#) Their mission is to see "how things ought to be," and then to commit their lives to making it so.[{7}](#)

In a manner similar to Platt's book *Radical*, Lyons chastises Christians who focus too much on the Gospel message of redemption and emphasizing a salvation that offers escape from this fallen world. By putting restoration back into God's story we don't have to wait for God to give us a new heaven and earth, we can experience it now.

Lyons' call to action is an expansive one and it immediately raises questions about what a restored world should look like; what specific form should our political and economic systems take? He seems to assume that we should know the answer to these questions but I am not so sure that it's that obvious.

A Faithful Presence

We will now consider the most academic of the three books we are examining, James Hunter's book *To Change the World*. Not only is Hunter's book one third longer than the other two, it is far more abstract in content. Where the other two books give significant space to stories of lives changed by a biblical calling, Hunter devotes less than three pages to real life examples. What we do get is a thoughtful overview of how most Christians wrongly pursue political power in the name of Christ.

According to Hunter, Christians can be broken down into three distinct groups: the Christian Right, the Christian Left and the Neo-Anabaptists. The Christian Right seeks to win the culture war. In its eyes, Christian America is disappearing and needs to be defended. Secularism has conquered the media, academia, and government, resulting in a culture that rejects

biblical values and corrupts our children.

In many ways the Christian Left and Neo-Anabaptists look a lot alike. They are hostile towards an unrestrained market economy and capitalism itself. They also share a sharp loathing for the Christian Right. But they differ dramatically regarding the believer's relationship to government. The Left see the government as a partner while the Neo-Anabaptists see it only as a coercive force that uses violence to enforce its will.

Hunter argues that all three groups seek political power in order to change the culture, a goal that will inevitably fail. He spends a large portion of the book explaining why changing a culture is far more difficult than most appreciate. Cultures are more complex and resilient than we think and cannot be changed by just putting new ideas in people's minds.

In the end, Hunter calls Christians to what he describes as a faithful presence. Rather than defending against the secularization of culture, trying to be relevant to it, or even seeking purity from its negative effects he calls for another response that lends authenticity without sacrificing coherence and depth to our faith.

Building a faithful presence requires that our leaders care more about discipleship than fighting the culture war or gaining political power. Christ followers today have faith but lack a vision for living that is distinct from the larger post-Christian culture. For Hunter, "A theology of faithful presence means a recognition that the vocation of the church is to bear witness to and to be the embodiment of the coming Kingdom of God."[\[8\]](#) Hunter realizes that the New Heavens and New Earth will be God's restoring work, but by honoring God through our relationships and our tasks we will taste something of His kingdom now.

Summary

In this article we have considered three stimulating and passionate books, *Radical* by David Platt, *The Next Christians* by Gabe Lyons and *To Change the World* by James Hunter and have been left with three overlapping pictures of what it means to be a Christ follower in the current American culture. Is the Christian life about being a radical, being as counter-cultural as possible? Is it restoring the world to a pre-fall condition? Or is it as simple as being a disciple maker?

The apostle Paul certainly lived a radical lifestyle, but he was limited by a couple of parameters. Paul talks about being free from the expectations of men and yet careful not to give offense in any way that might hinder the gospel.^{9} He was culturally sensitive enough to know what actions or words might keep people from hearing the good news. He said that he became all things to all men so that some might be saved. He conformed to the culture enough to communicate the transcendent truth about Jesus.

Paul says very little about reforming Roman society, the government, commerce, or education. He seems to be much more concerned about the culture within the church than he does the culture at large. He writes, “What business is it of mine to judge those outside the church? Are you not to judge those inside?”^{10} His desire was for Christ followers to live out the “one another” passages that fill the New Testament. To be loving, encouraging, building up, and bearing with one another in a way that will draw outsiders to the gospel.

What about Gabe Lyons’ strong emphasis on restoration? In my mind the issue is one of priorities. Most Christians would like to see their efforts result in some degree of healing and restoration in our society. But is healing and restoration of America our first priority? This might be true if one holds the view that Christians must take over society prior to Christ’s return, as do some postmillennialists. But for those

who believe that Christ will return as a conquering king to a world in rebellion, there is no expectation or responsibility for Christians to restore the planet. These differing positions show, once again, the relevance of theology to everyday life.

International speaker and author Os Guinness describes clearly our first priority as believers. He writes, "All that we do must be first and last for Christ and His kingdom, not for America, or the West, or democracy, or whatever. The 'first things' must be first again, and everything else must be viewed only a bonus or a by-product, and not our prime concern."^[11] Since God has chosen to build his kingdom through the church, it is Christ's church that should receive our primary efforts.

9/11 and You

My sister had a 9:00 a.m. appointment at the World Trade Center.

On September 12.

Since September 11, 2001, I've often wondered what might have happened had her appointment been a day earlier or the terrorist attacks a day later. I could have been walking the streets of New York City with her picture.

What were your feelings that tragic day? Shock? Fear? Anger? Confusion? Sadness? How do you process those feelings now, as reminders of the attacks come in anniversary commemorations and media coverage? Nearly two-thirds of American Red Cross 9/11 adult counselees still grieve, according to a study of those directly affected by the attacks^{1}.

“I Hate You!”

In the immediate aftermath, my feelings of sadness blended with intense hostility. Once when Osama Bin Laden's face appeared on television, I spontaneously shouted, “I hate you!”

I was and am a follower of Jesus. He taught his followers to “love your enemies.”^{2} Why was I yelling “I hate you!” to a picture on a TV screen?

I wondered why this guy hated my sister. If Deborah Wright had been among the victims, her death would have been included among those he applauded. If I had been a victim, he would have applauded mine. I wrote a radio series on “[Why Radical Muslims Hate You](#)” to discover historical, socio-cultural, political, religious, and psychological roots of such anger.

It helped me to connect with Muslims who shared similar concerns but disavowed the radical methods.

Dust of Death

Deborah's experience as a corporate chaplain took her back to New York to help WTC-based companies and their employees who suffered loss on 9/11 cope with the emotional and spiritual whirlwinds their worlds had become. Many suffered from survivor guilt. Failure to process grief could lead to serious consequences. Some firemen, for instance, were assigned to look after widows of fallen comrades. "There can be enormous intimacy and bonding in shared grief," Deborah notes. "Some of the firemen and widows ended up in bed together."

Some competitive, driven businesspersons re-examined their rat race—making big bucks and accumulating the most toys—and asked, "Is that all there is?". Long looks at corporate culture prompted many to consider spiritual realities.

Part of helping survivors process their experiences involved taking them to Ground Zero. Deborah comments, "As I stood at Ground Zero and picked up the dust, I could not help but think that we were standing in a giant crematorium. The ground seemed hallowed to me."

Personal Lessons from 9/11

What personal 9/11 lessons persist? Perhaps you can relate to these that seem poignant to me:

We live in a contingent universe. Human decisions and actions have consequences, often for good or evil.

Life is temporary. One early spiritual leader wrote of our lives' fleeting nature, "You are just a vapor that appears for a little while and then vanishes away."[\[3\]](#)

Link with the eternal. Jesus of Nazareth, whom people of

diverse spiritual persuasions respect as a great teacher, told a friend grieving her brother's death, "I am the resurrection and the life. Those who believe in me, even though they die like everyone else, will live again. They are given eternal life for believing in me and will never perish."[\[4\]](#)

Cherish your friends. In the aftermath of 9/11, many friendships were deepened as people linked with each other for encouragement, solace and support.

Understand and love your enemies and intellectual adversaries. Support national defense, but learning about state enemies can help communication with moderates who share some of their convictions. Getting to know neighbors or associates with whom you differ politically, philosophically or spiritually can help build bridges that foster civility in public discourse.

Leftist Jewish Journalist

Survives Evangelical Beat

Quiz: What do you get when you take one leftist Jewish journalist, assign him to the evangelical Christian beat for major newspapers on both US coasts, sprinkle in some fiery sermons and politically conservative speeches, mix thoroughly, and bake with the heat of fiercely contested national elections?

Note: This is not a joke.

Sound like a recipe for nitroglycerin shortcake? Maybe you'd expect mutual animosity: "Those wacko God-squaders are at it again, imposing their beliefs and politics on the rest of us sane people." "He's just another example of the biased secular humanist liberal media that's ruining America."

Yet this cake hides no explosives. The leftist Jewish journalist made a significant discovery on the road to meeting deadlines, one he feels can instruct his colleagues and us all.

He says to effectively cover the strange tribe to which he was assigned, it helps to know its members as neighbors and friends. His lesson has affected his writing in ways that have conservative evangelicals commending him for fairness and that provide useful illustrations for managing today's turbulent culture wars.

A Jew Among the Evangelicals

[Mark Pinsky's new book](#), *A Jew Among the Evangelicals: A Guide for the Perplexed* (Westminster John Knox), tells how this "nice Jewish boy from Jersey" ended up attending church "more often than many Christians" and sometimes more often than he attends his own synagogue. During his ten years covering religion for the *Los Angeles Times*, he focused on leaders of major evangelical ministries and had little connection with

local grassroots evangelicals.

When he moved to Florida in 1995 to write for the *Orlando Sentinel*, they were everywhere: In the neighborhood, at kids sporting events, birthday parties, PTA meetings, Scouts, “I encountered evangelicals simply as people, rather than as subjects or sources of quotes for my stories.”

Still a committed Jew, Pinsky found they were neither monolithic nor, as *The Washington Post* once claimed, “poor, uneducated and easy to command.” They displayed surprising diversity on a range of issues including the Iraq war, environmentalism, tax policy, women in leadership, and immigration.

The Readable Radical

Disclaimer: Pinsky, whom I’ve known since our university days, is a personal friend, so I’m biased. But I’ve also observed a curious development here that merits wider consideration. His *Duke Chronicle* column was entitled “The Readable Radical” and he was at the vanguard of late-1960s campus leftist causes. I didn’t always agree with his politics, but I admired his concerns about justice, hypocrisy and the disenfranchised.

He still votes with the Democratic left, but he also understands the Christian subculture he covers better than many of its members. Mutual respect characterizes his relations with its leaders.

Pinsky is not without good natured humor as he highlights evangelical quirks. Example: the Orlando golf club that hyped its Easter sunrise service and “Easter Egg Scramble” golf tournament. And, perhaps-not-so-tongue-in-cheek, he admits he especially likes about evangelical Christians that “if you are sorry, they have to forgive you.” He knows their boss said, “When you are praying, first forgive anyone you are holding a grudge against^{[1](#)}”.

Lessons for Life in the Larger World

His book draws lessons from his peculiar and unlikely journey for life in the larger world. His stories of “how people just like you wrestle with feelings, values, and beliefs that touch the core of their beings” provide “a glimpse of someone learning to understand and get along with folks whose convictions differ from his own.”

Get to know your intellectual and philosophical adversaries, he recommends. Take them to lunch. Ratchet down the rhetoric. Maybe connection can produce understanding and civility can grow into bridgebuilding.

Not bad advice in a world too-often filled with brickbats and name calling.

Why Radical Muslims Hate You (Short op-ed piece)

If you are a Westerner, an American, a non-Muslim, or a Muslim of a different stripe than they, then some radical Muslims hate you.

Why? The complex answer involves history, culture, politics, religion and psychology. Of course, many—some would say most—Muslims are peace loving and deplore terrorism. Islam is quite diverse. Extremist Muslims do not represent all Muslims

any more than white supremacists represent all Christians. Not all “radical” Muslims are violent or hateful. But understanding extremist Muslim hatred is essential to interpreting our post-9/11 world.

Osama Bin Ladin calls on Muslims to “obey God’s command to kill the Americans and plunder their possessions...to kill Americans and their allies, both civil and military...” He and his sympathizers want to eliminate Western influence and restore their version of Islam to the world.

Would you believe that dancing in American churches helped fuel some radical Muslim anger today? Princeton Near East scholar Bernard Lewis illustrates.

In 1948, Sayyid Qutb visited the United States for Egypt’s Ministry of Education. His stay left him shocked with what he perceived as moral degeneracy and sexual promiscuity.

He wrote that even American religion was tainted by materialism and consumerism. Churches marketed their services to the public like merchants and entertainers. Success, big numbers, “fun” and having “a good time” seemed crucial to American churches.

He especially deplored clergy-sanctioned dances at church recreation halls. When the ministers lowered the lights, the dances became hot. Qutb’s PG description: “The dance is inflamed by the notes of the gramophone...the dance-hall becomes a whirl of heels and thighs, arms enfold hips, lips and breasts meet, and the air is full of lust.” He cited the famous Kinsey Reports as evidence of American sexual debauchery.

Qutb, who was dark skinned, also experienced racism in America. Back in Egypt, Qutb joined the Muslim Brothers organization. Imprisonment and torture made his writings more militant. Qutb became what Georgetown University religion and international affairs professor John Esposito calls “the

architect of radical Islam.”

Some Muslim Brotherhood groups, offshoots, and alumni are mainstream and nonviolent. Others have a violent legacy. A militant offshoot, Islamic Jihad, assassinated Egyptian president Anwar Sadat. Esposito notes that Abdullah Azzam, a radicalized former Muslim Brother, significantly influenced Osama bin Ladin. Former CIA Middle East case officer Robert Baer observes that a Kuwaiti Muslim Brother, Khalid Sheikh Muhammad, became a bin Ladin terror chief.

Princeton’s Lewis notes that Sayyid Qutb’s denunciation of American moral character became incorporated into radical Islamic ideology. For instance, he says Iran’s Ayatollah Khomeini, in calling the U.S. the “Great Satan,” was being consistent with the Koranic depiction of Satan not as an “imperialist” or “exploiter” but as a seducer, “the insidious tempter who whispers in the hearts of men.”

The founder of the faith I follow, Jesus of Nazareth, told people to “Love your enemies and pray for those who persecute you.” It is not emotionally easy for me to love Osama bin Ladin or to pray for him. I have to ask God for strength for that.

Certainly bin Ladin’s hatred of me and my compatriots—flawed though we may be—does not justify his campaign of terror. His campaign rightly prompts national vigilance, a proverbial cost of freedom. But as we keep the powder dry, might it also be appropriate to individually reflect on the character that seems so offensive to him and his colleagues?
