

Impose Values

Natasha Crain warns Christians in her new book, *When Culture Hates You: Persevering for the Common Good as Christians in a Hostile Public Square*. She begins by talking about the hostility Christians often face when they articulate a biblical perspective on cultural issues. We shouldn't be surprised since Jesus warned us, "If the world hates you, know that it has hated me before it hated you" (John 15:18).

One of the significant criticisms from non-Christians, and even from Christians, is the claim that Christians should not impose their views on others. We also hear that Christians should not seek power. We are told that getting involved in politics harms our witness and can disrupt unity in the church. And we are told that Christians should not be partisans.

To evaluate those objections, she proposes slavery as a test case. Here are her five key statements using those objections: (1) Christians shouldn't have worked to end slavery because we shouldn't have imposed our views on others. (2) Christians shouldn't have worked to end slavery because that involved seeking power to do it. (3) Christians shouldn't have worked to end slavery because getting involved with a political issue harmed our witness. (4) Christians shouldn't have worked to end slavery because it disrupted unity in the church. (5) Christians shouldn't have worked to end slavery because Christians shouldn't have been partisans.

Would we accept those objections today? We would reject such reasoning and can see how we shouldn't have applied such

arguments two centuries ago. We were called to speak truth then and are called to speak truth today.

“How Is It Moral To Own People as Property?”

How is it moral to own people as property and pass them along to your heirs, Leviticus 25:44-46?

We wouldn't say it's moral, but it IS part of life in a fallen world deeply impacted by sin.

The Bible never condones slavery, but God does regulate it to protect people where slavery was part of an economic system.

Much of slavery in the ancient world was different from the heinous, inhuman, and degrading slavery of the past several hundred years (and unfortunately, continuing into today). People would choose to sell themselves into slavery as a way of managing debt and insufficient income to provide for themselves and their families.

Slavery has been and is part of a fallen world, but ultimately, when Jesus Christ sets everything right in the new heavens and the new earth, there will be no slavery. God does have a plan and a timeline for abolishing slavery altogether and forever.

Here's some helpful insight on the subject: www.gotquestions.org/Bible-slavery.html

Islam and Terrorism

Kerby Anderson provides various perspectives on the link between Islam and terrorism, including how Americans and Christians can think about its encroachment on our culture.

Clash of Civilizations

In this article we will be looking at Islam and terrorism. Before we look at the rise of Muslim terrorism in our world, we need to understand the worldview conflict between Islam and western values. The Muslim religion is a seventh-century religion. Think about that statement for a moment. Most people would not consider Christianity a first century religion. While it began in the first century, it has taken the timeless message of the Bible and communicated it in contemporary ways.

In many ways, Islam is still stuck in the century in which it developed. One of the great questions is whether it will adapt to the modern world. The rise of Muslim terrorism and the desire to implement sharia law illustrate this clash of civilizations.

In the summer of 1993, Samuel Huntington published an article entitled "The Clash of Civilizations?" in the journal *Foreign Affairs*.[\[1\]](#) Three years later Samuel Huntington published a book using a similar title: *The Clash of Civilizations and the*

Remaking of World Order. It became a bestseller, once again stirring controversy. It seems worthy to revisit his comments and predictions because they have turned out to be remarkably accurate.

His thesis was fairly simple. World history will be marked by conflicts between three principal groups: western universalism, Muslim militancy, and Chinese assertion.

Huntington says that in the post-Cold War world, "Global politics has become multipolar and multicivilizational."^[2] During most of human history, major civilizations were separated from one another and contact was intermittent or nonexistent. Then for over 400 years, the nation states of the West (Britain, France, Spain, Austria, Prussia, Germany, and the United States) constituted a multipolar international system that interacted, competed, and fought wars with each other. During that same period of time, these nations also expanded, conquered, and colonized nearly every other civilization.

During the Cold War, global politics became bipolar, and the world was divided into three parts. Western democracies led by the United States engaged in ideological, political, economic, and even military competition with communist countries led by the Soviet Union. Much of this conflict occurred in the Third World outside these two camps and was composed mostly of nonaligned nations.

Huntington argued that in the post-Cold War world, the principal actors are still the nation states, but they are influenced by more than just power and wealth. Other factors like cultural preferences, commonalities, and differences are also influential. The most important groupings are not the three blocs of the Cold War, but rather the major world civilizations. Most significant in discussion in this article is the conflict between the Western world and Muslim militancy.

Other Perspectives on Radical Islam

In the previous section, we talked about the thesis by Samuel Huntington that this is a clash of civilizations.

Bernard Lewis sees this conflict as a phase that Islam is currently experiencing in which many Muslim leaders are attempting to resist the influences of the modern world (and in particular the Western world) on their communities and countries. This is what he had to say about Islam and the modern world:

Islam has brought comfort and peace of mind to countless millions of men and women. It has given dignity and meaning to drab and impoverished lives. It has taught people of different races to live in brotherhood and people of different creeds to live side by side in reasonable tolerance. It inspired a great civilization in which others besides Muslims lived creative and useful lives and which, by its achievement, enriched the whole world. But Islam, like other religions, has also known periods when it inspired in some of its followers a mood of hatred and violence. It is our misfortune that part, though by no means all or even most, of the Muslim world is now going through such a period, and that much, though again not all, of that hatred is directed against us. {3}

This does not mean that all Muslims want to engage in jihad warfare against America and the West. But it does mean that there is a growing clash of civilizations.

William Tucker believes that the actual conflict results from what he calls the Muslim intelligensia. He says "that we are not facing a clash of civilizations so much as a conflict with an educated segment of a civilization that produces some very weird, sexually disoriented men. Poverty has nothing to do with it. It is stunning to meet the al Qaeda roster—one highly accomplished scholar after another with advanced degrees in

chemistry, biology, medicine, engineering, a large percentage of them educated in the United States.”[{4}](#)

His analysis is contrary to the many statements that have been made in the past that poverty breeds terrorism. While it is certainly true that many recruits for jihad come from impoverished situations, it is also true that the leadership comes from those who are well-educated and highly accomplished.

Tucker therefore concludes that we are effectively at war with a Muslim intelligentsia. These are essentially “the same people who brought us the horrors of the French Revolution and 20th century Communism. With their obsession for moral purity and their rational hatred that goes beyond all irrationality, these warrior-intellectuals are wreaking the same havoc in the Middle East as they did in Jacobin France and Mao Tse-tung’s China.”[{5}](#)

Threat from Radical Islam

It is hard to estimate the extent of the threat of radical Islam, but there are some commentators who have tried to provide a reasonable estimate. Dennis Prager provides an overview of the extent of the threat:

Anyone else sees the contemporary reality—the genocidal Islamic regime in Sudan; the widespread Muslim theological and emotional support for the killing of a Muslim who converts to another religion; the absence of freedom in Muslim-majority countries; the widespread support for Palestinians who randomly murder Israelis; the primitive state in which women are kept in many Muslim countries; the celebration of death; the honor killings of daughters, and so much else that is terrible in significant parts of the Muslim world—knows that civilized humanity has a new evil to fight.[{6}](#)

He argues that just as previous generations had to fight the Nazis and the communists, so this generation has to confront militant Islam. But he also notes something is dramatically different about the present Muslim threat. He says:

Far fewer people believed in Nazism or in communism than believe in Islam generally or in authoritarian Islam specifically. There are one billion Muslims in the world. If just 10 percent believe in the Islam of Hamas, the Taliban, the Sudanese regime, Saudi Arabia, Wahhabism, bin Laden, Islamic Jihad, the Finley Park Mosque in London or Hizbollah—and it is inconceivable that only one of 10 Muslims supports any of these groups' ideologies—that means a true believing enemy of at least 100 million people.[{7}](#)

This very large number of people who wish to destroy civilization poses a threat that is unprecedented. Never has civilization had to confront such large numbers of those would wish to destroy civilization.

So, what is the threat in the United States? Let's take one number and one percentage for an estimate. There are about 4 million Muslim-Americans in the U.S., and we are often told that nearly all are law-abiding citizens. So let's assume that percentage is even as high as 99 percent. That still leaves one percent who believe in jihad and could pose a threat to America. Multiply one percent by 4 million and you get a number of 40,000 individuals that Homeland Security needs to try to monitor. Even if you use a percentage of one-tenth of one percent, you still get about 4,000 potential terrorists in America.

That is why it is important to understand the potential threat we face from radical Islam.

Islamic Tipping Point

When the Muslim population increases in a country, there are certain social changes that have been documented. Peter Hammond deals with this in his book, *Slavery, Terrorism, & Islam*. Most people have never read the book, but many have seen an email on one of the most quoted parts of the book. [\[8\]](#)

He argued that when the Muslim population is under five percent, the primary activity is proselytizing, usually from ethnic minorities and the disaffected. By the time the Muslim population reaches five percent or more, it begins to exert its influence and start pushing for Sharia law.

Peter Hammond sees a significant change when a Muslim population reaches ten percent (found in many European countries). At that point, he says you begin to see increased levels of violence and lawlessness. You also begin to hear statements of identity and the filing of various grievances.

At twenty to thirty percent, there are examples of hair-trigger rioting and jihad militias. In some countries, you even have church bombings. By forty percent to fifty percent, nations like Bosnia and Lebanon experience widespread massacres and ongoing militia warfare. When at least half the population is Muslim, you begin to see the country persecute infidels and apostates and Sharia law is implemented over all of its citizens.

After eighty percent, you see countries like Iran, Syria, and Nigeria engage in persecution and intimidation as a daily part of life. Sometimes state-run genocide develops in an attempt to purge the country of all infidels. The final goal is "Dar-es-Salaam" (the Islamic House of Peace).

Peter Hammond would probably be the first to say that these are generalizations and there are certainly exceptions to the rule. But the general trends have been validated through

history. When the Muslim population is small, its leaders focus on winning converts and working to gain sympathy for Sharia law. But then their numbers increase, the radical Muslims leaders takeover and the Islamic domination begins.

In this article we have been looking at the challenge of Islam when it comes to jihad and terrorist activity. I document all of this in my new book, *Understanding Islam and Terrorism*. The book not only deals with the threat of terrorism but also takes time to explain the theology behind Islam with helpful suggestions on how to witness to your Muslim friends. You can find [more information](#) about my book on the Probe Ministries website.

Sharia Law and Radical Islam

A foundational practice of Islam is the implementation of Sharia into the legal structure. Sharia is a system of divine law, belief, or practice that is based upon Muslim legal interpretation. It applies to economics, politics, and society.

Sometimes the world has been able to see how extreme the interpretation of Sharia can be. Muslims have been put to death when they have been accused of adultery or homosexuality. They have been put to death for leaving the religion of Islam. And these are not isolated examples.

Sharia law is very different in many respects from the laws established through the U.S. Constitution and the laws established through English Common law. In an attempt to prevent Sharia law from being implemented in America, a number of state legislatures have such bans on Sharia law. Voters in other states have approved a ban that has been struck down by a federal appeals court.

Although opponents argue that these Sharia law bans are unnecessary, various studies have found significant cases of Sharia law being allowed in U.S. courts. One report with the title, "Sharia Law and the American State Courts"[\[9\]](#) found 50 significant cases of Sharia law in U.S. courts just from their small sample of appellate published cases. When they looked at state courts, they found an additional 15 cases in the trial courts and 12 more in the appellate courts. Judges are making decisions deferring to Sharia law even when those decisions conflict with the U.S. Constitution and the various state constitutions.

How should we respond to the increased use of Sharia law in America? One simple way to explain your concern to legislators, family, friends, and neighbors is to remember the numbers 1-8-14. These three numbers stand for the three amendments to the U.S. Constitution that prevent the use of Sharia law.

The First Amendment says that there should be no establishment of religion. Sharia law is based on one religion's interpretation of rights. The First Amendment prohibits the establishment of any national religion (including Islam).

The Eighth Amendment prohibits "cruel and unusual punishment." Most Americans would consider the penalties handed down under Sharia law to be cruel and unusual.

The Fourteenth Amendment guarantees each citizen equal protection under the Constitution. Sharia law does not treat men and women equally, nor does it treat Muslims and non-Muslims equally. This also violates the Constitution.

These are just a few ways to argue against Sharia law. As Christians, we need discernment to understand the religion of Islam, and boldness to address the topic of radical Islam with biblical convictions.

Myths About the Bible

Newsweek began 2015 with a [cover story on the Bible](#). In the lead article, we get a heavy dose of liberal theory and

secular skepticism about the Bible. But the author is correct in arguing that [very few Americans are biblically literate](#). Many Christian ministries have documented this through various surveys as well as lots of anecdotal stories.

Two writers with *The Federalist* decided to follow the lead of *Newsweek* and write about [“The Eight Biggest Myths About the Bible.”](#) Here are just a few of the cultural myths so many have accepted.

Many people believe the Bible teaches: “money is the root of all evil.” That is not what Paul taught (in 1 Timothy 6:10) which says: “For the love of money is a root all kinds of evil.” The Bible does not condemn money or wealth, but does admonish us to be generous and not to make money an idol.

Another myth is the pervasive belief that Christians are never to make moral judgments. One of the most quoted verses these days is Matthew 7:1. Jesus says, “Judge not, that you be not judged.” He is not telling us not to make moral judgments. In the following verses, he explains that we are not to be hypocritical. We may only see the speck in another person’s eye and not notice the log in our own eye.

One of the current myths being spread by many atheists is that the Bible condones slavery. This is hard to accept if you just look at history. Most abolitionists in this country or Great Britain were Bible-believing Christians. Paul Copan has chapters in many of his books addressing the misunderstanding of the concept of debt-servanthood or indentured servitude that is nothing like slavery. He also addresses another one of the myths listed: that the God of the Old Testament is an Angry Tribal Deity.

Newsweek is correct that much of America is biblically illiterate. And the writers in *The Federalist* are right that many have accepted these cultural myths about the Bible. That is why we need to study God’s Word and take the time to read

some good books that destroy these myths.

Amazing Grace in John Newton – A Christian Witness Lived and Sung

“How Sweet the Sound”

Are you familiar with the classic song *Amazing Grace*? You probably are. Do you know the inspiring story behind its songwriter? Maybe like I did, you *think* you know the real story, but you don't.

John Newton was an eighteenth century British slave trader who had a dramatic faith experience during a storm at sea. He gave his life to God, left the slave trade, became a pastor, and wrote hymns. “Amazing Grace! (how sweet the sound),” Newton wrote, “That saved a wretch like me! I once was lost, but now am found, was blind but now I see.”^[1] He played a significant role in the movement to abolish the slave trade.

Newton's song and story have inspired millions. *Amazing Grace* has been played at countless funerals and memorial services, sung at civil rights events and in churches, and even hit pop music charts when Judy Collins recorded it. It's loved the world over. In South Korea, a local audience asked a coworker and me to sing them the English version; they responded by singing it back to us in Korean.

Newton wrote the lyrics, but the tune we know today did not

become linked with them until about 1835, after his death.^{2} My university roommate and I used to try to see how many different tunes would fit the *Amazing Grace* lyrics. My favorites were *Joy to the World* (the Christmas carol), *Ghost Riders in the Sky*, and *House of the Rising Sun*. Try them sometime. They work!

Jonathan Aitken has written a biography titled *John Newton: From Disgrace to Amazing Grace*.^{3} Aitken sees some parallels between his own life and his subject's. Aitken was once a prominent British parliamentarian and Cabinet member, but perjury landed him in prison where his life took a spiritual turn. He's now active in prison ministry and Christian outreach.

John Newton's journey from slave trader to pastor and hymn writer is stirring. But it has some surprising twists. You see, Newton only became a slave-ship captain *after* he placed his faith in Christ. And he left the slave trade not because of his spiritual convictions, but for health reasons.

Lost and Found

Newton was the prototypical "bad boy." His devout Christian mother, who hoped he would become a minister, died when he was six. He says that through much of his youth and life at sea, "I loved sin and was unwilling to forsake it."^{4} At times, "I pretended to talk of virtue," he wrote, "yet my delight and habitual practice was wickedness."^{5} He espoused a "freethinking" rationalist philosophy and renounced the Christian faith.^{6}

Flogged and demoted by the Navy for desertion, he became depressed, considered suicide, and thought of murdering his captain.^{7} Traded to work on a slave ship, Newton says, "I was exceedingly wretched. . . . I not only sinned with a high hand myself, but made it my study to tempt and seduce others

upon every occasion.”{8}

In West Africa he partnered with a slave trader and negotiated with African chiefs to obtain slaves.{9} Life was good, he recalled. “We lived as we pleased, business flourished, and our employer was satisfied.”{10} Aitken, the biographer, says Newton engaged in sexual relations with female slaves.{11}

One day on another ship, Newton was reading—casually, “to pass away the time”—an edition of Thomas à Kempis’ classic, *On the Imitation of Christ*. He wondered, “What if these things were true?” Dismayed, he “shut the book quickly.” {12} Newton called himself a terrible “blasphemer” who had rejected God completely.{13} But then, as Forrest Gump might say, God showed up.

That night, a violent storm flooded the ship with water. Fearing for his life, Newton surprised himself by saying, “The Lord have mercy on us!” Spending long hours at the ship’s helm, he reflected on his life and rejection of God. At first, he thought his shortcomings too great to be forgiven. Then, he says, “I . . . began to think of . . . Jesus whom I had so often derided . . . of His life and of His death . . . for sins not His own, but for those who in their distress should put their trust in Him.”{14}

In coming days, the New Testament story of the prodigal son (Luke 15) particularly impressed him. He became convinced of the truth of Jesus’ message and his own need for it. “I was no longer an atheist,” he writes. “I was sincerely touched with a sense of undeserved mercy in being brought safe through so many dangers. . . . I was a new man.”{15}

Newton discovered that the “new man” would not become perfect. Maturation would be a process, as we’ll see.

From Slave-Ship Captain to Pastor

After his dramatic experience at sea, Newton saw changes in his life. He attended church, read spiritual books, prayed, and spoke outwardly of his commitment. But his faith and behavior would take many twists on the road toward maturity. [{16}](#)

Newton set sail again on a slave ship, seeing no conflict between slaving and his new beliefs. Later he led three voyages as a slave-ship captain. Newton studied the Bible. He held Sunday worship services for his crew on board ship. [{17}](#)

Church services on a slave ship? This seems absolutely disgusting today. How could a dedicated Christian participate in slave trading? Newton, like many of his contemporaries, was still a work-in-progress. Slavery was generally accepted in his world as a pillar of British economy; few yet spoke against it. As Aitken points out, this cultural disconnect doesn't excuse Christian slave trading, but it does help explain it.

During my youth in the US south, I was appalled by racism I observed, more so when church members practiced it. [I concluded](#) that some merely masqueraded as followers of Jesus. Others had genuine faith but—by choice or confusion—did not faithfully follow God. It takes years for some to change. Others never do. Aitken observes that in 1751, Newton's spiritual conscience "was at least twenty years away from waking up to the realization that the Christian gospel and human slavery were irreconcilable." [{18}](#)

Two days before he was to embark on his fourth slave-trading voyage as ship's captain, a mysterious illness temporarily paralyzed Newton. His doctors advised him not to sail. The replacement captain was later murdered in a shipboard slave uprising. [{19}](#)

Out of the slave trade, Newton became a prominent public official in Liverpool. He attended Christian meetings and grew in his faith. The prominent speaker George Whitfield encouraged him.[{20}](#) Life still brought temptations. Newton engaged in the common practice of accepting kickbacks until a business ethics pamphlet by Methodism founder John Wesley prompted him to stop, at significant loss of income.[{21}](#)

Eventually, Newton sought to become an ordained minister, but opposing church leaders prevented this for six years. Intervention by the Earl of Dartmouth—benefactor of Dartmouth College in the US—helped launch his formal ministry.[{22}](#) Newton was to significantly impact a young Member of Parliament who would help rescue an oppressed people and a nation's character.

Newton and Wilberforce: Faith in Action

William Wilberforce was a rising star in Parliament and seemed destined for political greatness. As a child he had often heard John Newton speak but later rejected the faith. As an adult, conversations with a Cambridge professor had helped lead him to God. He considered leaving Parliament and entering the ministry. In 1785, he sought the advice of his old pastor, Newton.

Newton advised Wilberforce not to leave politics. "I hope the Lord will make him a blessing, both as a Christian and as a statesman," Newton later explained.[{23}](#) His advice proved pivotal. Wilberforce began attending Newton's church and spending time with him privately. Newton became his mentor.[{24}](#)

Perhaps you've seen the motion picture *Amazing Grace* that portrays Wilberforce's twenty-year parliamentary struggle to outlaw the trading of slaves. If you missed it in theaters, I encourage you see it on DVD. It was after spending a day with

Newton that Wilberforce recorded in his diary his decision to focus on abolishing the slave trade.^{25} During [the arduous abolition campaign](#), Wilberforce sometimes considered giving up and quitting Parliament. Newton encouraged him to persist, reminding him of another public figure, the biblical Daniel, who, Newton said, “trusted in the Lord, was faithful . . . and . . . though he had enemies they could not prevail against him.”^{26}

Newton’s biblical worldview had matured to the point that he became active in the abolition movement. In 1788, he published a widely circulated pamphlet, *Thoughts Upon the African Slave Trade*. “I hope it will always be a subject of humiliating reflection to me,” he wrote, “that I was once an active instrument in a business at which my heart now shudders.”^{27} His pamphlet detailed horrors of the slave trade and argued against it on moral and practical grounds.

Abolitionists sent a copy to every member of both Houses of Parliament. Newton testified before important parliamentary committees. He described chains, overcrowded quarters, separated families, sexual exploitation, flogging, beating, butchering. The Christian slave-ship captain who once was blind to his own moral hypocrisy now could see.^{28} Jonathan Aitken says, “Newton’s testimony was of vital importance in converting public opinion to the abolitionist cause.”^{29}

Wilberforce and his colleagues finally prevailed. In early 1807 Britain outlawed the slave trade. On December 21 of that year, grace finally led John Newton home to his Maker.

Lessons from a Life of Amazing Grace

John Newton encountered “many dangers, toils, and snares” on his life’s voyage from slaver to pastor, hymn writer, mentor, and abolitionist. What lessons does his life hold? Here are a few.

Moral maturation can take time. Newton the morally corrupt slave trader embraced faith in Jesus, then continued slave trading. Only years later did his moral and spiritual conscience catch up on this issue with the high principles of the One he followed. We should hold hypocrites accountable, but realize that blinders don't always come off quickly. One bumper sticker I like reads, "Please be patient; God is not finished with me yet."

Humility became a hallmark of Newton's approach to life. He learned to recognize his shortcomings. While revising some of his letters for publication, he noted in his diary his failures to follow his own advice: "What cause have I for humiliation!" he exclaimed. "Alas! . . . How defective [I am] in observing myself the rules and cautions I propose to others!"[\[30\]](#) Near the end of his life, Newton told a visitor, "My memory is nearly gone, but I remember two things: That I am a great sinner and that Christ is a great Savior."[\[31\]](#)

Newton related Jesus' message to current events and everyday life. For him, faith was not some dull, dusty, irrelevant relic but a living relationship with God, having immense personal and social relevance. He grew to see its import in fighting the slave trade. He used both the Bible and friendship to encourage Wilberforce. He tied his teaching to the news of the day, seeking to connect people's thoughts with the beliefs that had changed his life.[\[32\]](#)

Newton was grateful for what he saw as God's providence. Surviving the storm at sea that helped point him to faith was a prime example, but there were many others. As a child, he was nearly impaled in a riding accident.[\[33\]](#) Several times he narrowly missed possible drowning.[\[34\]](#) A shooting accident that could have killed him merely burned part of his hat.[\[35\]](#) He often expressed gratitude to God.

Have you ever considered writing your own epitaph? What will it say? Here's part of what Newton wrote for his epitaph. It's

inscribed on his tomb: "John Newton. Once an infidel and libertine, a servant of slaves in Africa was by the rich mercy of our Lord and Saviour Jesus Christ preserved, restored, pardoned and appointed to preach the faith he had long laboured to destroy." [\[36\]](#)

Amazing Grace Movie: Lessons for Today's Politicians

I once was lost, but now am found, was blind but now I see.”^{1} He played a significant role in the movement to abolish the slave trade.

Newton's song and story have inspired millions. *Amazing Grace* has been played at countless funerals and memorial services, sung at civil rights events and in churches, and even hit pop music charts when Judy Collins recorded it. It's loved the world over. In South Korea, a local audience asked a coworker and me to sing them the English version; they responded by singing it back to us in Korean.

Newton wrote the lyrics, but the tune we know today did not become linked with them until about 1835, after his death.^{2} My university roommate and I used to try to see how many different tunes would fit the *Amazing Grace* lyrics. My

favorites were *Joy to the World* (the Christmas carol), *Ghost Riders in the Sky*, and *House of the Rising Sun*. Try them sometime. They work!

Jonathan Aitken has written a biography titled *John Newton: From Disgrace to Amazing Grace*.^{3} Aitken sees some parallels between his own life and his subject's. Aitken was once a prominent British parliamentarian and Cabinet member, but perjury landed him in prison where his life took a spiritual turn. He's now active in prison ministry and Christian outreach.

John Newton's journey from slave trader to pastor and hymn writer is stirring. But it has some surprising twists. You see, Newton only became a slave-ship captain *after* he placed his faith in Christ. And he left the slave trade not because of his spiritual convictions, but for health reasons.

Lost and Found

Newton was the prototypical "bad boy." His devout Christian mother, who hoped he would become a minister, died when he was six. He says that through much of his youth and life at sea, "I loved sin and was unwilling to forsake it."^{4} At times, "I pretended to talk of virtue," he wrote, "yet my delight and habitual practice was wickedness."^{5} He espoused a "freethinking" rationalist philosophy and renounced the Christian faith.^{6}

Flogged and demoted by the Navy for desertion, he became depressed, considered suicide, and thought of murdering his captain.^{7} Traded to work on a slave ship, Newton says, "I was exceedingly wretched. . . . I not only sinned with a high hand myself, but made it my study to tempt and seduce others upon every occasion."^{8}

In West Africa he partnered with a slave trader and negotiated with African chiefs to obtain slaves.^{9} Life was good, he

recalled. “We lived as we pleased, business flourished, and our employer was satisfied.”[{10}](#) Aitken, the biographer, says Newton engaged in sexual relations with female slaves.[{11}](#)

One day on another ship, Newton was reading—casually, “to pass away the time”—an edition of Thomas à Kempis’ classic, *On the Imitation of Christ*. He wondered, “What if these things were true?” Dismayed, he “shut the book quickly.” [{12}](#) Newton called himself a terrible “blasphemer” who had rejected God completely.[{13}](#) But then, as Forrest Gump might say, God showed up.

That night, a violent storm flooded the ship with water. Fearing for his life, Newton surprised himself by saying, “The Lord have mercy on us!” Spending long hours at the ship’s helm, he reflected on his life and rejection of God. At first, he thought his shortcomings too great to be forgiven. Then, he says, “I . . . began to think of . . . Jesus whom I had so often derided . . . of His life and of His death . . . for sins not His own, but for those who in their distress should put their trust in Him.”[{14}](#)

In coming days, the New Testament story of the prodigal son (Luke 15) particularly impressed him. He became convinced of the truth of Jesus’ message and his own need for it. “I was no longer an atheist,” he writes. “I was sincerely touched with a sense of undeserved mercy in being brought safe through so many dangers. . . . I was a new man.”[{15}](#)

Newton discovered that the “new man” would not become perfect. Maturation would be a process, as we’ll see.

From Slave-Ship Captain to Pastor

After his dramatic experience at sea, Newton saw changes in his life. He attended church, read spiritual books, prayed, and spoke outwardly of his commitment. But his faith and behavior would take many twists on the road toward

maturity. [{16}](#)

Newton set sail again on a slave ship, seeing no conflict between slaving and his new beliefs. Later he led three voyages as a slave-ship captain. Newton studied the Bible. He held Sunday worship services for his crew on board ship. [{17}](#)

Church services on a slave ship? This seems absolutely disgusting today. How could a dedicated Christian participate in slave trading? Newton, like many of his contemporaries, was still a work-in-progress. Slavery was generally accepted in his world as a pillar of British economy; few yet spoke against it. As Aitken points out, this cultural disconnect doesn't excuse Christian slave trading, but it does help explain it.

During my youth in the US south, I was appalled by racism I observed, more so when church members practiced it. [I concluded](#) that some merely masqueraded as followers of Jesus. Others had genuine faith but—by choice or confusion—did not faithfully follow God. It takes years for some to change. Others never do. Aitken observes that in 1751, Newton's spiritual conscience "was at least twenty years away from waking up to the realization that the Christian gospel and human slavery were irreconcilable." [{18}](#)

Two days before he was to embark on his fourth slave-trading voyage as ship's captain, a mysterious illness temporarily paralyzed Newton. His doctors advised him not to sail. The replacement captain was later murdered in a shipboard slave uprising. [{19}](#)

Out of the slave trade, Newton became a prominent public official in Liverpool. He attended Christian meetings and grew in his faith. The prominent speaker George Whitfield encouraged him. [{20}](#) Life still brought temptations. Newton engaged in the common practice of accepting kickbacks until a business ethics pamphlet by Methodism founder John Wesley

prompted him to stop, at significant loss of income.[{21}](#)

Eventually, Newton sought to become an ordained minister, but opposing church leaders prevented this for six years. Intervention by the Earl of Dartmouth—benefactor of Dartmouth College in the US—helped launch his formal ministry.[{22}](#) Newton was to significantly impact a young Member of Parliament who would help rescue an oppressed people and a nation's character.

Newton and Wilberforce: Faith in Action

William Wilberforce was a rising star in Parliament and seemed destined for political greatness. As a child he had often heard John Newton speak but later rejected the faith. As an adult, conversations with a Cambridge professor had helped lead him to God. He considered leaving Parliament and entering the ministry. In 1785, he sought the advice of his old pastor, Newton.

Newton advised Wilberforce not to leave politics. "I hope the Lord will make him a blessing, both as a Christian and as a statesman," Newton later explained.[{23}](#) His advice proved pivotal. Wilberforce began attending Newton's church and spending time with him privately. Newton became his mentor.[{24}](#)

Perhaps you've seen the motion picture *Amazing Grace* that portrays Wilberforce's twenty-year parliamentary struggle to outlaw the trading of slaves. If you missed it in theaters, I encourage you see it on DVD. It was after spending a day with Newton that Wilberforce recorded in his diary his decision to focus on abolishing the slave trade.[{25}](#) During [the arduous abolition campaign](#), Wilberforce sometimes considered giving up and quitting Parliament. Newton encouraged him to persist, reminding him of another public figure, the biblical Daniel, who, Newton said, "trusted in the Lord, was faithful . . . and

. . . though he had enemies they could not prevail against him.”{26}

Newton’s biblical worldview had matured to the point that he became active in the abolition movement. In 1788, he published a widely circulated pamphlet, *Thoughts Upon the African Slave Trade*. “I hope it will always be a subject of humiliating reflection to me,” he wrote, “that I was once an active instrument in a business at which my heart now shudders.”{27} His pamphlet detailed horrors of the slave trade and argued against it on moral and practical grounds.

Abolitionists sent a copy to every member of both Houses of Parliament. Newton testified before important parliamentary committees. He described chains, overcrowded quarters, separated families, sexual exploitation, flogging, beating, butchering. The Christian slave-ship captain who once was blind to his own moral hypocrisy now could see.{28} Jonathan Aitken says, “Newton’s testimony was of vital importance in converting public opinion to the abolitionist cause.”{29}

Wilberforce and his colleagues finally prevailed. In early 1807 Britain outlawed the slave trade. On December 21 of that year, grace finally led John Newton home to his Maker.

Lessons from a Life of Amazing Grace

John Newton encountered “many dangers, toils, and snares” on his life’s voyage from slaver to pastor, hymn writer, mentor, and abolitionist. What lessons does his life hold? Here are a few.

Moral maturation can take time. Newton the morally corrupt slave trader embraced faith in Jesus, then continued slave trading. Only years later did his moral and spiritual conscience catch up on this issue with the high principles of the One he followed. We should hold hypocrites accountable, but realize that blinders don’t always come off quickly. One

bumper sticker I like reads, "Please be patient; God is not finished with me yet."

Humility became a hallmark of Newton's approach to life. He learned to recognize his shortcomings. While revising some of his letters for publication, he noted in his diary his failures to follow his own advice: "What cause have I for humiliation!" he exclaimed. "Alas! . . . How defective [I am] in observing myself the rules and cautions I propose to others!"[\[30\]](#) Near the end of his life, Newton told a visitor, "My memory is nearly gone, but I remember two things: That I am a great sinner and that Christ is a great Savior."[\[31\]](#)

Newton related Jesus' message to current events and everyday life. For him, faith was not some dull, dusty, irrelevant relic but a living relationship with God, having immense personal and social relevance. He grew to see its import in fighting the slave trade. He used both the Bible and friendship to encourage Wilberforce. He tied his teaching to the news of the day, seeking to connect people's thoughts with the beliefs that had changed his life.[\[32\]](#)

Newton was grateful for what he saw as God's providence. Surviving the storm at sea that helped point him to faith was a prime example, but there were many others. As a child, he was nearly impaled in a riding accident.[\[33\]](#) Several times he narrowly missed possible drowning.[\[34\]](#) A shooting accident that could have killed him merely burned part of his hat.[\[35\]](#) He often expressed gratitude to God.

Have you ever considered writing your own epitaph? What will it say? Here's part of what Newton wrote for his epitaph. It's inscribed on his tomb: "John Newton. Once an infidel and libertine, a servant of slaves in Africa was by the rich mercy of our Lord and Saviour Jesus Christ preserved, restored, pardoned and appointed to preach the faith he had long laboured to destroy."[\[36\]](#)

William Wilberforce and Abolishing the Slave Trade: How True Christian Values Ended Support of Slavery

Rusty Wright provides an insightful summary of the journey which led William Wilberforce from unbelief to Christ and to leading the fight to abolish the slave trade in Britain. He clearly shows how true Christian values were key in inspiring Wilberforce's persistent effort to rid Britain of this shameful scourge, the slave trade.

Slavery's Scourge

What do you think of slavery? Are you for it or against it?

I suspect most readers would immediately denounce slavery as a scourge on humanity. But in the eighteenth century, much of western society accepted slavery and the slave trade. It took heroic efforts by dedicated leaders to turn the tide.

William Wilberforce, the famous British parliamentarian, helped lead a grueling but bipartisan twenty-year struggle to outlaw the trading of slaves. His inspiring story has many lessons for today's leaders.

Abraham Lincoln acknowledged Wilberforce's significant role in abolition.^{1} Nelson Mandela, addressing the British Parliament in 1996 as South Africa's president, declared, "We have returned to the land of William Wilberforce who dared . . . to demand that the slaves in our country should be freed."^{2}

The task was formidable. Eighteenth-century Britain led the world in slave trading. A pillar of colonial economy, the trade was legal, lucrative, and brutal. In one notorious episode, a ship's captain threw 132 slaves overboard, claiming illness and water shortage. British law protected the ship's owners, considering slaves property (like "horses," ruled one judge).^{3}

African tribal chiefs, Arab slave dealers, and European traders rounded up Africans, stuffed them into ships' holds, and delivered them to colonial auctions for sale and forced servitude. The "Middle Passage" across the Atlantic was especially horrific. Slaves typically lay horizontal, shackled and chained to each other, packed like sardines. The air was stale and the sanitation putrid.

Olaudah Equiano, a freed slave, said the "stench of the hold," the heat, and the cramped quarters brought sickness and much death. The deceased, Equiano explained, fell "victims to the improvident avarice . . . of their purchasers." He wrote, "The shrieks of the women, and the groans of the dying, rendered

the whole a scene of horror almost inconceivable.” Some slaves, when taken up on deck, jumped overboard, preferring death to their misery.{4}

Enter William Wilberforce, young, silver-tongued, popular, ambitious, seemingly destined for political greatness. Then, a profound change led him on a path that some say cost him the prime ministership, but helped rescue an oppressed people and a nation’s character.

Wilberforce’s “Great Change”

The transatlantic slave trade was filled with horror stories about human inhumanity. John Newton, a former slave trader, told of a shipmate “who threw a child overboard because it moaned at night in its mother’s arms and kept him awake.”{5}

William Wilberforce grew up among Britain’s privileged, far from these horrors. Heir to a fortune, he was a slacker and socialite at Cambridge. Sporting an adept sense of humor, he loved partying and playing cards more than schoolwork. His superior intellect frequently covered for his lax academic habits. His keen mind, delightful wit, and charming personality kept many doors open.{6}

At Cambridge, he befriended William Pitt the Younger, who would become Britain’s youngest Prime Minister. Both were elected to Parliament in their twenties. Wilberforce became Pitt’s bulldog, using his oratorical and relational skills to advance Pitt’s legislative agenda.

From 1784 to 1786, what he later called his “Great Change” would forever reshape his life’s work. It began innocently enough when he invited his friend, Cambridge professor Isaac Milner, to accompany him on a journey to France. Milner was a brilliant scientist who eventually became vice chancellor of Cambridge. (That’s similar to a university president in the U.S.) As they conversed during the trip, Wilberforce was

surprised to hear Milner speak favorably of biblical faith. Wilberforce was a skeptic and wanted nothing to do with ardent believers to whom he had been exposed in his youth.

During their travels, Milner and Wilberforce spent long hours discussing faith and the Bible. His doubts receded as Milner answered his objections. Initial intellectual assent to Christian faith morphed into deeper conviction and a personal relationship with God.[{7}](#)

Back in England, he reluctantly consulted John Newton, slave trader turned pastor and writer of the well-known hymn, "Amazing Grace." Newton had been Wilberforce's minister for a time during his youth, before his spiritual interest waned. Wilberforce wrote that after his meeting with Newton, "My mind was in a calm, tranquil state, more humbled, looking more devoutly up to God."[{8}](#) Newton encouraged Wilberforce that God had raised him up "for the good of the nation."[{9}](#)

In time, Wilberforce grew to consider "the suppression of the slave trade" part of his God-given destiny.[{10}](#) At first he thought abolition would come quickly, but he guessed incorrectly, as we will see.

The Battle in Parliament

When William Wilberforce first introduced anti-slave-trade legislation into Parliament, he had high hopes. He quickly learned that opposition would be fierce.

Financial stakeholders howled. Significant elements of British economy relied on slavery. Businesspersons didn't want to sacrifice profit. Their elected representatives didn't want to sacrifice votes. Some claimed slavery benefited slaves since it removed them from barbarous Africa. The Royal Family opposed abolition. Even Admiral Lord Nelson, Britain's great hero, denounced "the damnable doctrine of Wilberforce and his hypocritical allies."[{11}](#)

Wilberforce and the Abolitionists repeatedly introduced legislation. Apathy, hostility and parliamentary chicanery dragged out the battle. Once, his opponents distributed free opera tickets to some abolition supporters for the evening of a crucial vote, which the Abolitionists then lost. Enough supporting members of Parliament were at the opera to have reversed the outcome.[{12}](#) Twice West Indian sea captains threatened Wilberforce's life. His health faltered.[{13}](#)

Buoyed by friends and faith, Wilberforce persisted. He believed God viewed all humans as equal,[{14}](#) citing Acts 17:26, "[God] has made from one blood every nation of men." Methodism founder John Wesley encouraged perseverance, writing, "If God is with you, who can be against you? . . . Be not weary in well-doing. Go on . . . till even American slavery, the vilest that ever saw the sun, shall vanish away."[{15}](#) John Newton wrote and testified in Parliament about his experiences as a slave trader, "a business at which my heart now shudders," he explained.[{16}](#)

Finally, in 1807, twenty years after beginning, Wilberforce prevailed. Parliament erupted in cheering as the slave trade abolition bill passed.

Of course, outlawing the British transatlantic slave trade in 1807 did not immediately eradicate the trade. In fact, it continued, practiced illegally for a while by British subjects and for decades among other nations like France, Spain and Portugal. Alas, African tribal chiefs and Arab slave-dealers continued to supply captured Africans for the system.[{17}](#)

But outlawing the slave trade proved the impetus for a host of social improvements, including prison reforms, child labor laws, and abolition of slavery itself in 1833, of which Wilberforce learned only a few days before his death.

Wilberforce's Methods: Lessons for Today

The esteemed historian W.E.H. Lecky ranked the British anti-slavery movement "among the three or four perfectly virtuous pages . . . in the history of nations."[\[18\]](#) While, of course, Wilberforce and his Abolitionist colleagues were not perfect, their historic effort left many lessons for today. Consider a few that could enhance your own interaction in the workplace, academia, politics, cross-cultural engagement, in your neighborhood or family.

The value of friendships and teamwork. Many of the Abolitionists lived for several years in the same community. They and their families enjoyed one another's friendship and moral support. This camaraderie provided invaluable encouragement, ideas, and correction.

Bipartisan cooperation was essential to Wilberforce's success. He set aside differences on certain issues to collaborate for the greater good. Both political liberals and conservatives joined the abolition cause. Quakers mobilized support. Wilberforce partnered with Jeremy Bentham founder of Utilitarianism on abolition and prison reform.[\[19\]](#) Utilitarianism, of course, favors the end justifying the means, hardly a biblical value.[\[20\]](#) Yet the two could work together.

Wilberforce sought to make civil discourse civil. Biographer Kevin Belmonte notes, "After his Great Change Wilberforce was nearly always able to dissent from the opinions of others with tact and kindness. This trait grew gradually within him; it was not instantaneous, nor did he always act as charitably as he might have wished on some occasions. But he kept trying."[\[21\]](#) He aimed to disagree without being disagreeable.

Wilberforce attempted to establish common ground with his opponents. In his opening speech on abolition before Parliament, he was especially gracious. "I mean not to accuse

anyone,” he explained, “but to take the shame upon myself, in common indeed with the whole Parliament of Great Britain, for having suffered this horrid trade to be carried on under their authority. We are all guilty we ought all to plead guilty, and not to exculpate ourselves by throwing the blame on others.”[{22}](#)

William Wilberforce was not perfect. He had fears, flaws and foibles like anyone. You likely would not agree with all his political views. But he did possess dedication to principle and to God, close friends of many stripes, a penchant for bipartisan cooperation, and steadfast commitment to right terrible injustice. A fine example for life and work today.

Wilberforce’s Motivation: Lessons for Today

Have you ever been tempted by opposition to abandon a good cause? What motivated William Wilberforce to persevere in pursuing abolition for twenty agonizing years?

After discovering faith, Wilberforce viewed the world through different lenses-biblical lenses. He authored a popular book to explain faith’s implications. Famous parliamentarian Edmund Burke, who found solace in it during his last two days of life, said, “If I live, I shall thank Wilberforce for having sent such a book into the world.”[{23}](#)

Wilberforce’s book, *Real Christianity*,[{24}](#) emphasized personal, life-changing faith, not mere nominal assent. He wrote, “God loved the world so much and felt such tender mercy for us that He gave His only Son Jesus Christ for our redemption.”[{25}](#) He felt all humans have an innate flawself-centeredness or sin that inhibits true generosity, “clouds our moral vision and blunts our moral sensitivity.”[{26}](#) He called selfishness “the mortal disease of all political communities”[{27}](#) and humbly admitted his own “need and

imperfection.”[{28}](#)

Wilberforce believed Jesus suffered “death on the cross . . . for our sake” so those accepting His pardon “should come to Him and . . . have life that lasts forever.”[{29}](#) Don’t get the cart before the horse, he warned. Good behavior doesn’t earn God’s acceptance; it should be a result of “our reconciliation with God.”[{30}](#) Wilberforce encouraged his reader to “Throw yourself completely . . . on [God’s] undeserved mercy. He is full of love, and He will never reject you.”[{31}](#)

Wilberforce aspired to the Golden Rule: “doing to others as we would have them do to us.”[{32}](#) He believed the faith was intellectually credible and advocated teaching its supporting evidences,[{33}](#) but cautioned that “a lack of faith is in general a disease of the heart more than of the mind.”[{34}](#)

Wilberforce asked penetrating questions: “Do we love our enemies? Are we gentle even when we are provoked? Are we ready to forgive and apt to forget injuries? . . . Do we return evil with good . . . ? Can we rejoice in our enemy’s good fortune, or sympathize with their distresses?”[{35}](#) Sound convicting? Join the club.

An inscribed tribute to Wilberforce at Westminster Abbey where he is buried commends his efforts, “Which, by the blessing of God, removed from England the guilt of the African slave trade, and prepared the way for the abolition of slavery in every colony of the Empire: . . . he relied, not in vain, on God.”[{36}](#)

Wilberforce’s legacy of faith and service persists. What will your legacy be?

Slavery, William Wilberforce and the Film “Amazing Grace”

The transatlantic trade in slavery was outlawed 200 years ago. This anniversary is marked by the release of Amazing Grace, a feature film about abolitionist William Wilberforce. Byron Barlowe argues that his life is an exemplar of how God can use faith, moral bravery along with biblical thinking and long-term action—even against tough odds—to transform culture for good.

You may have caught the buzz surrounding the film *Amazing Grace*, still in theaters nationwide at this writing. It premiered just in time to celebrate the anti-slavery campaign led by William Wilberforce, which outlawed [\[1\]](#) transatlantic slavery 200 years ago.

Culturally active Christians, especially, hail the film as a refreshingly well-done cinematic rendering of a historical hero that will be worth viewing and, if you’re so inclined, owning. Wilberforce’s story is an exemplar of how God can use faith, moral bravery along with biblical thinking and long-term action to transform culture for good.

Slavery then & now

The term “slavery” usually evokes images of forced-émigrés from Africa in the American South from the advent of the American colonies. Yet, slavery in some form is a feature of life in much of the world’s history and may be more rampant

today than ever before. From indentured servants who willingly pledged submission to their masters to those bought and sold as property—as in the American and British systems—to those held in present-day fear and financial bondage right under our modern noses, slavery is simply a hard fact.

According to Probe writer Rusty Wright, the 18th Century British slave trade “was legal, lucrative, and brutal.”[{2}](#) Altering that reality was a life-cause for Wilberforce and his abolitionist brethren.

This was not always the sentiment among Christians, going back to the early Church. Although their ancient slavery was often more benign than in Wilberforce’s day, it surprises many to discover that such notables as Polycarp (Bishop of Smyrna), Clement of Alexandria, Athenagoras (Second Century Christian philosopher), and Origen held to slavery as a God-given right. Later Church luminaries such as St. Bonaventure agreed. Pope Paul III even granted the right of clergy to own slaves.[{3}](#)

Latin America’s pre-Columbian slave-based culture was prodigious, but how much does one hear of this or the claim that the Church ended it? Author Nancy Pearcey tells of a Mexican man [who] spoke from the audience at a recent conference:

My ancestors were the Aztecs. We were the biggest slave traders, and the slaves were used for human sacrifice—to make the sun rise each day! Our Aztec priests ripped out the beating hearts from living slaves who were sacrificed in our temples...

I don’t like it. I am not proud of it... It is part of our history. We have to face up to it.

Pointing out the unique ameliorative influence of the Christian faith as contrasted with Islam, he added:

And the slavery and human sacrifice in Mexico only stopped when Christianity came and brought it to an end. That is the fact of history. When are the Arabs going to face up to the facts of their own history, and to what is going on in many Muslim countries today? When are they going to rise up like the Christians to bring this slavery in their own countries to an end?[{4}](#)

Using the film as a launching pad, present-day abolitionist groups continue a campaign to publicize and eradicate modern-day slavery. According to *World* magazine, “today 27 million people live on in captivity, their lives worth far less than any colonial era slave.”[{5}](#) “About 17,000 are trafficked annually in the United States.”[{6}](#)

Relative to the *chattel* slaves of Wilberforce’s day, for which owners paid heavy prices and held title deeds, today’s illegally held human “property” comes cheap—and blends in. Most are in debt bondage, some are contract laborers living under harsh conditions, and others are forced into marriage and prostitution. “Human trafficking, which ensnares 600,000 to 800,000 people a year, is the newest slave trade and the world’s third-largest criminal business after drugs and arms dealing.”[{7}](#)

Contemporary abolitionist, hands-on human rights campaigner, member of the British House of Lords and professed follower of Christ, the Baroness Caroline Cox points out that obliteration of the white slave trade lends hope to modern-day campaigns. “There have been many slaveries, but there has been only one abolition, which eventually shattered even the rooted and ramified slave systems of the Old World.”[{8}](#)

An “alliance of modern Wilberforces” includes “lawmakers, clergy, layers, bureaucrats, missionaries, social workers, and even reclusive Colorado billionaire Philip Anschutz,” who bankrolled the film *Amazing Grace*.[{9}](#) They seek to repeat

Wilberforce's success.

Opposition in Wilberforce's day

Wilberforce and his compatriots faced an entrenched pro-slavery culture. "...The entire worldview of the British Empire was what we today call social Darwinism. The rich and the powerful preyed on and abused the poor and the weak." [{10}](#)

The British royal family sanctioned slavery. The great military hero of the day, Admiral Lord Nelson, denounced "the damnable doctrine of Wilberforce and his hypocritical allies." [{11}](#)

Once again, the religious climate of the day tolerated institutionalized evil. In a chapter entitled "Slavery Abolished: A Christian Achievement" in his sweeping book *How Christianity Changed the World*, Alvin J. Schmidt writes, "A London church council decision of 1102, which had outlawed slavery and the slave trade [{12}](#), was ignored." Schmidt continues regarding religious hypocrisy, that the "revival of slavery" in Wilberforce's time in Britain, Spain, Portugal and their colonies "...was lamentable because this time it was implemented by countries whose proponents of slavery commonly identified themselves as Christians, whereas during the African and Greco-Roman eras, slavery was the product of pagans." [{13}](#)

Most compellingly, Wilberforce's convictions put his own welfare at risk. Twice, West Indian sea captains threatened Wilberforce's life. [{14}](#) This campaign was not a casual *cause célèbre* to him.

Wilberforce biographer Eric Metaxas states:

...The moral and social behavior of the entire culture...was hopelessly brutal, violent, selfish, and vulgar. He hoped to restore civility and Christian values to British society,

because he knew that only then would the poor be lifted out of their misery.

Wilberforce's Secret: learn to disagree agreeably{15}

It has been fashionable, on occasion, to lionize William Wilberforce to the point of exaggeration. However, we can legitimately extract godly, courageous and wise principles from his life's story.

Holding fast to a distinctively biblical worldview will often come smack into conflict with the most cherished societal sins of one's day. It was slavery then, you name the issue today: abortion, gluttony, gambling, pornography, human trafficking. Yet, many a well-meaning activist has fallen prey to a crass loss of civility in the long battle to turn the tide of public opinion and policy.

Metaxas contrasts:

Wilberforce understood the Scripture about being wise as serpents and gentle as doves. He was a very wise man who worked with those from other views to further the causes God had called him to. Because of the depth of his faith, Wilberforce was a genuinely humble man who treated his enemies with grace—and of course that had great practical results.

Just as Cambridge professor Isaac Milner, his mentor to faith in Christ, had once stood against Wilberforce's skepticism agreeably, so he learned to do politically. He was relevant, shrewd, yet genuine. "Wilberforce wasn't full of pious platitudes. He really had the ability to translate the things of God in a way that people could really hear what he was saying," Metaxas says.

Even privately, his actions forcefully, yet humbly, disagreed with prevailing cultural winds. Metaxas describes his serious conviction to spend significant time raising his six children, certainly uncommon for fathers in his day. One lasting result: “because of his fame [this] set the fashion with regard to family togetherness and being together on Sundays that lasted far into the 19th and even 20th centuries.”

The Christian worldview drove Wilberforce and his predecessors to oppose slavery and its effects

Wilberforce gained a reputation as a man of faith. Sir Walter Scott credited Wilberforce with being a spiritual leader among Parliamentarians. Biographer John Stoughton wrote that his effectiveness as speaker was greatest when he “appealed to the Christian consciences of Englishmen.”[\[16\]](#) Nonetheless, Wilberforce was his own biggest proponent of his need for grace.

The doctrines of *sola fide* (“by faith alone”) and *sola gratia* (“by grace alone”) formed the foundation of Wilberforce’s theology, or how he viewed God and His relation to the world. Metaxas relates, “He really knew that he was as wicked a sinner as the worst slave trader—without that sense of one’s own sinfulness, it’s very easy to become a moralizing Pharisee.”

Author and pastor John Piper writes:

...The doctrine of justification is essential to right living—and that includes political living... [The “Nominal Christians” or Christians in name only, of Wilberforce’s day] got things backward: First they strived for moral uplift, and then appealed to God for approval. That is not the Christian gospel. And it will not transform a nation. It would not sustain a politician through 11 parliamentary defeats over 20

years of vitriolic opposition. {17}

The Apostle Paul wrote, “Where the Spirit of the Lord is, there is freedom.” {18} Sometimes it takes 20 years or much longer for the Spirit to move an entire culture! God is patient and works with our free wills, but accomplishes His purposes in the end.

Paul wrote several other times in Scripture regarding slavery. He told Philemon to treat his own slave as a brother. That is, lose the slave, gain a spiritual brother.

To the church in Galatia, Paul wrote that there was “neither Jew nor Greek, slave nor free...for you are all one in Christ Jesus.” {19} The status of *slave* was subsumed under the category of *believer*, where all are equal. “...Given the culturally ingrained practice of slavery...in the ancient world, Paul’s words were revolutionary. The Philemon and Galatians passages laid the groundwork for the abolition of slavery, then and for the future.” {20}

Anti-Slavery positions were commonplace in the Early Church. Slaves worshiped and communed with Christians at the same altar. Christians often freed slaves, even redeemed the slaves of others {21} (much like contemporary believers who buy freedom for Sudanese slaves). This equal treatment of slaves sometimes set Christians up as targets of persecution. {22}

Christianity is no stranger to abolition throughout history. Schmidt writes:

...The effort to remove slavery, whether it was Wilberforce in Britain or the abolitionists in America, was not a new phenomenon in Christianity. Nor were the efforts of Martin Luther King, Jr. and the American civil rights laws of the 1960s to remove racial segregation new to the Christian ethic. They were merely efforts to restore Christian practices that were already in existence in Christianity’s

primal days. {23}

The film *Blood Diamond* graphically portrays child soldiers brutally manipulated to do the killing for a rebel group in Africa, an actual contemporary tragedy. In the story's only bright spot, a gentle, fatherly African offers an apologetic for his work to rescue and rehabilitate boy warriors. The message is straightforward: do what you can in the moral morass, for "who knows which path leads to God?"

Wilberforce found the path—the Way, the Truth and the Life {24}—and it continues to light the way for people in bondage today. But it's only just begun, once again.

Tale of Two Republics

It's hard to read an historical account of the ancient Roman Republic without being tempted to compare its successes and failures with America. For some, it follows that if the mighty Roman Empire fell because of moral, economic, and military blunders, the U.S. shall relinquish its greatness by committing similar errors. The problem with this argument is that it's a form of political reductionism that leaves out the providence of God. He alone determines the destiny of nations and peoples. He alone brings revival, causing people to repent and nations to turn from sin.

Although we can find similarities between different historical settings, every historical event is unique. And even though similar patterns of behavior might be found in both eras, modern America is very different from ancient Rome. With all of that said, there are certainly trends within cultures that prove to be deleterious to the social fabric that binds together a nation.

In this article we will compare social trends and attitudes found among the ruling class of ancient Rome with those of modern America. In one sense the empire built by the Roman Republic was itself surprisingly modern. Its success was powered by large scale business enterprises, cutting edge technology, and economic opportunity for the upper class. It also had a highly structured and disciplined army that made it the dominant military force on the planet much like America is today. Although only a small percentage of the total population was involved, the Roman Republic engaged a significant number of people in the political process which was rare for any nation until modern times.

Another similarity between the ancient Romans and modern Americans is that both tend to see themselves as the “most morally upright people in the world.” This dangerous human tendency is amplified by military success and goes hand-in-hand with the unspoken assumption of “How could an immoral people prosper as we do?”

In the recent book, *Rubicon*, by Tom Holland, the story is told of how changes in the Roman culture and leadership eventually brought an end to 460 years of the Republic, ushering in a period of absolute rule by Augustus in 27 B.C. Using material from this book, we will look at how big business and materialism corrupted politics and foreign relations, how power distorted justice and reduced individuals to a commodity, and how nationalism was twisted into a tool for building political power and personal gain. Finally, we will explore how individuals were able to overthrow the Republic and impose tyrannical rule on Rome in the name of tradition and conservative principles.

America is not ancient Rome. However, without the constraints of a biblical worldview it is not hard to see how a future leader or political movement might steal the republic from the American people all in the name of patriotism and tradition.

Big Business, Materialism, and the Military

Back in the sixties, protestors against the war in Vietnam focused on the danger inherent in what was called the military-industrial complex, the partnership between the American companies producing weapons and military supplies, and those who used them. The charge was that America was using its military to both protect and feed America’s big business concerns, and in return, big business was providing the

military with what it needed to be dominant on the battlefield. In a speech in 1961, President Eisenhower warned that

In the councils of government, we must guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists and will persist.[{1}](#)

He went on to explain that

This conjunction of an immense military establishment and a large arms industry is new in the American experience. The total influence—economic, political, even spiritual—is felt in every city, every State house, every office of the Federal government.[{2}](#)

Rome had its own military-industrial complex. As proconsul of the East (in 64 B.C.), Pompey occupied Antioch, the capital of Syria, and shortly afterwards Jerusalem and the kingdom of Judea. His justification was to protect Roman interests in the region which turned out to be mostly business interests. Pompey was willing to intervene in or impose direct rule on any territory in the interest of maintaining peace and a good business environment. This *Pax Romana* protected unbridled exploitation by Roman entrepreneurs.

The Roman Republic was fueled by big business and its military victories were often turned into a license to make money. Cities were ransacked for treasure, mining was conducted on a scale not to be witnessed again until the Industrial

Revolution, and in one city, smelting furnaces caused pollution so bad that naked skin burned and turned white upon exposure.[{3}](#)

A culture that encourages limitless greed and personal glory opens itself up to unbridled corruption and bloodshed. The Romans soon found that the republic they so cherished could not survive with leadership that would go to any lengths, and tell any lie, that might keep them in power. The American republic is also fragile. When a “profit at any cost mentality” becomes too embedded, it corrupts both accounting practices and governmental policy.

God did not spare even his people when it became evident that they were corrupted by greed. The prophet Amos warned Judah that God was bringing on judgment because “They [the people of God] trample on the heads of the poor as upon the dust of the ground and deny justice to the oppressed.”[{4}](#) God is still concerned about justice. It will always be in every nation’s interest to seek justice for all people and to act upon ethical principles beyond the profit motive or personal glory.

The Politics of Power

One common trait of both the ancient Roman Republic and the early United States is that they shared a dependence on slave labor. The Romans believed that if a man allowed himself to be enslaved, then he thoroughly deserved his fate. As they conquered much of the known world, the Romans plundered the wealth of each new territory, and human beings were a major part of this booty. The empire established a single market that moved slaves around the Mediterranean Sea in vast numbers. Millions of slaves owned by wealthy and not so wealthy Roman citizens performed most of the tasks that made Rome rich and powerful.

Even though slavery had virtually vanished in Christian

Europe, it was reestablished when the Portuguese began to trade with Africa in the mid-fourteenth century. There had always been slavery in Africa, and it was further developed by Arab traders after the emergence of Islam which regulated its use. Eventually, the Portuguese took over the slave trade and made it more impersonal and horrible than ever. As the Portuguese and Spanish traveled westward, they brought slavery with them. This slave trade became an early component of life in the New World and, eventually, in America.

The result of this dependency was living in constant fear of slaves and a slave revolt. In the Roman Republic, Spartacus led a group of slaves in such a revolt in 73 B.C. that grew to be an army of over 100,000. The rebellion was eventually crushed by politically ambitious leaders Crassus and Pompey. Crassus sent a violent message against future revolts by having the defeated army of Spartacus crucified every forty yards along a one hundred mile stretch of road outside of Rome. America experienced its bloodiest conflict in the Civil War, primarily over the slavery issue. Both cultures endured a degradation of society as a result of slavery. Thomas Jefferson thought that slavery was an evil institution that corrupted the slave owner more than the slave, yet he owned and traded slaves most of his life.

The Roman Republic continued to live with the tension of slave ownership and labor until its demise. The U. S. ended slavery, but has continued to suffer the effects of enslaving an entire people for centuries. Distrust and anger still exist between races in America, and the gospel message is often tainted because the Bible was used as a justification by some for enslaving millions.

When a society recognizes the uniqueness and significance of each citizen, it is acknowledging the biblical teaching that all individuals are made in God's image. How the current conflicts over other moral issues such as abortion and euthanasia are settled will determine whether we continue to

move closer to or further from this biblical principle.

Conservatism Abused

The word *conservative* can mean different things to different people. However, as the name implies, it usually points to someone who is trying to conserve or protect traditional values, values that are often seen as fundamental to both the creation of and the continuance of a nation or political entity. Conservatives argue in defense of what are often called the “permanent things” relating to spiritual, political, and familial ideals. Conservatives in the Roman Republic and the current United States have both referred often to these “permanent things.” In some cases, the “permanent things” have been used as a screen to support other agendas or to simply gain power and prestige.

The “permanent things” of the Roman Republic were quite different from today’s America. The myth of Romulus and Remus, whose simple childhood home was preserved on a hillside in Rome, is one example. Their legend includes a violent struggle against one another, ending in the death of Remus, which over time came to depict the enduring struggle between the aristocracy of Rome and the plebian class. Another permanent ideal was the freedom from economic or political slavery that was felt by many Romans to be the key to the Republic’s success. A corollary to this freedom was the severe meritocracy supported by the unwritten constitution that guided the nation. Each man was to seek glory and wealth in the name of Rome, and his success or failure would determine his destiny. Strong leaders such as Sulla would sometimes violate the ancient rules of Rome and its unwritten constitution in order to “save it” from perceived or real threats to the Republic. For example, in 88 B.C. Sulla led an army on Rome, violating an ancient tradition. Generals commissioned to serve Rome swore never to enter the city with their soldiers, a tradition that had existed intact for

hundreds of years. Sulla claimed that he violated this tradition in order to save the Republic from his political enemy Marius, but he was acting mostly out of desire for personal power and glory.

Ancient Rome also had its traditional religious beliefs and institutions. The temple of Jupiter was at the center of the city as were temples to other Roman gods. Political careers could be ruined if one ignored the traditional role of religion in Roman culture.

America has obvious traditions regarding the role of government, family, and religion. It is unlikely that an outspoken atheist or someone who denied the authority of the U.S. Constitution could be elected president. However, the Roman Republic was lost when men, in the name of conserving the traditions of the Roman people, began to ignore the very rules established by those traditions in their pursuit of personal power and glory.

The Fall of the Republic

Another group which grew increasingly more influential in the Empire and its provinces were the *publicani*. These were businessmen who ran large business cartels that benefited from the unquestioned dominance of Rome's military power. These business ventures sold shares, had shareholder meetings, elected directors to a governing board, and were as profit motivated as any present day multinational corporation. Although they held no official government title, the *publicani* wielded considerable authority in Rome's provinces and were held in contempt for their merciless extraction of wealth by any means necessary.

This military-fiscal complex corrupted what had been a traditional policy of isolationism in Rome. One provincial administrator, Rutilius Rufus, attempted to restrain the abuse

caused by the *publicani* and tax collectors but was himself brought to court, convicted, and exiled in 92 B.C.

Eventually, the provincials fought back. Finding the provinces of Asia poorly defended, Mithridates, the King of Pontus, quickly defeated the Roman forces and encouraged the locals to take their revenge. In the summer of 88 B.C. he ordered the massacre of every Roman and Italian left in Asia. Eighty thousand men, women, and children were killed during one bloody night. Mithridates was seen by the Greeks as a divine source of retribution against the hated superpower of the day. The execution of the Roman commissioner Manius Aquillius provides a vivid picture of the animosity held by many towards Rome. Mithridates order some of the gold treasure held by the Romans to be melted down. Then, Aquillius's head was held back, his mouth forced open, and the molten metal poured down his throat.

I am not equating Rome's experience with modern America. It would be too easy and false to match Osama bin Laden's motives and actions with those of Mithridates. But unfortunately, any nation that rises to the level of wealth and power that the U.S. has will attract resentment and jealous hatred. At the same time, we have to be wise stewards of all that God has blessed us with. We should be known for our justice and mercy, not just our military power.

Even if we do everything right, some will resent our actions. That is why Christians in business and government must avoid even the appearance of evil and work to make America a source of healing and freedom for oppressed people everywhere. We cannot allow those who mislabel our deeds cause us to grow weary of doing good. We should never fall victim to donor fatigue when it comes to hunger or natural disaster; God has blessed us with too much to not get involved. The difference between the Roman Empire and the U. S. is our awareness that God requires much from those who have been given much.

Slavery in America – How Did the Founders and Early Christians Regard It?

Kerby Anderson presents a thoughtful review of the attitude towards slavery held by many of our founders and early Christian leaders. Although a tragic chapter in our history, he encourages us to understand that many opposed slavery from the beginning believing that all men are in fact created equal.

Introduction

Slavery has been found throughout the history of the world. Most of the major empires in the world enslaved millions. They made slaves not only of their citizens but of people in the

countries they conquered.

Slavery is also a sad and tragic chapter in American history that we must confront honestly. Unfortunately, that is often not how it is done. History classes frequently teach that the founders and framers were evil men and hypocrites. Therefore, we no longer need to study them, nor do we need to study the principles they established in founding this country and framing the Constitution.

In fact, I have met many students in high school and college who have no interest in learning about the founders of this country and the framers of the Constitution merely because some were slaveholders. But I have also found that they do not know the whole story of the struggle over slavery in this country.

In reaction to this secular revisionist teaching in the public schools and universities, a Christian perspective has been offered that does not square with history. Some Christians, wanting to emphasize the biblical principles of the founding of this country, seem to have turned a blind eye to the evil of slavery. Slavery was wrong and represented an incomplete founding of liberty in this country.

In this article we will look at slavery in America and attempt to tell the story fairly and honestly. At the same time, we will bring forth facts and stories that have been lost from the current revisionist teaching on slavery.

First, let's put slavery in America in historical perspective. Historians estimate that approximately 11 million Africans were transported to the New World. Of these 4 million went to Brazil, 2.5 million to Spanish colonies, 2 million to the British West Indies, and 500,000 to the United States.

Although it is sometimes taught that the founders did not believe that blacks were human or deserved the same rights as whites, this is not true. Actually, the founders believed that

blacks had the same inalienable rights as other persons in America. James Otis of Massachusetts said in 1764 that “The colonists are by the law of nature freeborn, as indeed all men are, white or black.”[{1}](#)

Alexander Hamilton also talked about the equality of blacks with whites. He said, “their natural faculties are probably as good as ours. . . . The contempt we have been taught to entertain for the blacks, makes us fancy many things that are founded neither in reason nor experience.”[{2}](#)

As we will see, many worked tirelessly for the abolition of slavery and wanted a society that truly practiced the belief that “all men are created equal.”

The Founders’ View of Slavery

Let’s see what the founders and framers really thought about slavery and what they did to bring about its end. Here are a few of their comments.

Slavery was often condemned from the pulpits of America as revolutionary preachers frequently spoke out against it. One patriot preacher said, “The Deity hath bestowed upon them and us the same natural rights as men.”[{3}](#)

Benjamin Franklin said that slavery “is an atrocious debasement of human nature.”[{4}](#) He and Benjamin Rush went on to found the Pennsylvania Society for Promoting the Abolition of Slavery.

Benjamin Rush’s desire to abolish slavery was based on biblical principles. He stated: “Domestic slavery is repugnant to the principles of Christianity.” He went on to say, “It is rebellion again the authority of a common Father. It is a practical denial of the extent and efficacy of the death of a common Savior. It is an usurpation of the prerogative of the great Sovereign of the universe who has solemnly claimed an

exclusive property in the souls of men.”{5}

John Adams said, “Every measure of prudence, therefore, ought to be assumed for the eventual total extirpation of slavery from the United States I have, through my whole life, held the practice of slavery in . . . abhorrence.”{6}

James Madison in his speech before the Constitutional Convention said, “We have seen the mere distinction of colour made in the most enlightened period of time, a ground of the most oppressive dominion ever exercised by man over man.”{7}

During the American Revolution, many slaves won their freedom. Alexander Hamilton served on George Washington’s staff and supported the plan to enlist slaves in the army. He wrote to John Jay that “An essential part of the plan is to give them their freedom with their muskets . . . for the dictates of humanity and true policy equally interest me in favor of this unfortunate class of men.”{8} Blacks from every part of the country (except South Carolina and Georgia) won their freedom through military service.{9}

After the Revolution, many Americans who were enjoying new freedom from England were struck by the contradiction that many blacks were still enslaved. John Jay said “That men should pray and fight for their own freedom and yet keep others in slavery is certainly acting a very inconsistent as well as unjust and perhaps impious part.”{10}

In *Federalist* #54, James Madison stated that Southern laws (not nature) have “degraded [the slaves] from the human rank” depriving them of “rights” including the right to vote, that they would otherwise possess equally with other human beings. Madison argued that it was a “barbarous policy” to view blacks “in the unnatural light of property” rather than persons entitled to the same rights as other men.

Slavery and the Founders

When America was founded, there were about half a million slaves. Approximately one third of the founders had slaves (George Washington and Thomas Jefferson being the most notable). Most of the slaves lived in the five southern colonies.

Benjamin Rush and Benjamin Franklin (both signers of the Declaration of Independence) founded the Pennsylvania Society for Promoting the Abolition of Slavery in 1774. Rush went on to head a national abolition movement.

John Jay was the president of a similar society in New York. He said: "To contend for our own liberty, and to deny that blessing to others, involves an inconsistency not to be excused." John Adams opposed slavery because it was a "foul contagion in the human character" and "an evil of colossal magnitude." His son, John Quincy Adams, so crusaded against slavery that he was known as "the hell-hound of abolition."

It's important to note that when these anti-slavery societies were founded, they were clearly an act of civil disobedience. In 1774, for example, Pennsylvania passed a law to end slavery. But King George vetoed that law and other laws passed by the colonies. The King was pro-slavery, and Great Britain (at that time) practiced slavery. As long as the colonies were part of the British Empire, they would also be required to permit slavery.

When Thomas Jefferson finished his first draft of the Declaration of Independence, it included a paragraph condemning the King for introducing slavery into the colonies and continuing the slave trade. It said: "He [King George] has waged cruel war against human nature itself, violating its most sacred rights of life and liberty in the persons of a distant people who never offended him, captivating and carrying them into slavery in another hemisphere or to incur

miserable death in their transportation thither.” Unfortunately, this paragraph was dropped from the final draft because it was offensive to the delegates from Georgia and South Carolina.

After America separated from Great Britain, several states passed laws abolishing slavery. For example, Vermont’s 1777 constitution abolished slavery outright. Pennsylvania passed a law in 1779 for gradual emancipation. Slavery was abolished in Massachusetts and New Hampshire through a series of court decisions in the 1780s that ruled that “all men are born free and equal.” Other states passed gradual abolition laws during this period as well. By the time of the U.S. Constitution, every state (except Georgia) had at least prohibited slavery or suspended the importation of slaves.

Most of the founders (including many who at the time owned slaves) wanted to abolish the slave trade, but could not do so at the founding of this country. So, what about the compromises concerning slavery in the Constitution? We will look at that topic next.

Slavery and the Framers

We have noted that some of the founders were slaveholders. Yet even so, many of them wanted to abolish slavery. One example was George Washington.

In 1786, Washington wrote to Robert Morris that “there is not a man living who wishes more sincerely than I do, to see a plan adopted for the abolition of [slavery].”^{11} Later in his life he freed several of his household slaves and decreed in his will that his slaves would become free upon the death of his wife. Washington’s estate even paid for their care until 1833.

What about the compromises in the U.S. Constitution? When the delegates came to Philadelphia, there were strong regional

differences between northern and southern states concerning slavery.[{12}](#)

The first compromise concerned enumeration. Apportionment of representatives would be determined by the number of free persons and three-fifths of all other persons. Many see this as saying that blacks were not considered whole persons. Actually, it was just the opposite. The anti-slavery delegates wanted to count slaves as less in order to penalize slaveholders and reduce their influence in Congress. Free blacks were considered free persons and counted accordingly.

The second compromise dealt with the slave trade. Congress was prohibited until 1808 from blocking the migration and importation of slaves. It did not prevent states from restricting or outlawing the slave trade. As I pointed out previously, many had already done so. It did establish a temporary exemption to the federal government until President Jefferson signed a national prohibition into law effective January 1, 1808.

A final compromise involved fugitive slaves that guaranteed return of slaves held to service or labor "under the laws thereof." The wording did not imply that the Constitution recognized slavery as legitimate but only acknowledged that states had laws governing slavery.

It is notable that the words "slave" and "slavery" cannot be found in the U.S. Constitution. James Madison recorded in his notes on the constitutional convention that the delegates "thought it wrong to admit in the Constitution the idea that there could be property in men."

Slavery was wrong, and it is incorrect to say that the U.S. Constitution supported it. Frederick Douglas believed that our form of government "was never, in its essence, anything but an anti-slavery government." He argued, "Abolish slavery tomorrow, and not a sentence or a syllable of the Constitution

need be altered.”

Nevertheless, the seeds of a future conflict were sown in these compromises. The nation was founded on the ideal that “all men are created equal, that they are endowed by their Creator with certain unalienable rights.” John Quincy Adams later admitted that: “The inconsistency of the institution of slavery with the principles of the Declaration of Independence was seen and lamented.” The conflict eventually broke out into a great civil war.

The Bible and Slavery

How does the Bible relate to slavery in America? While it is true that so many of the leaders in the abolition movement were Christians, there were others who attempted to use their particular interpretation of the Bible to justify slavery. That should not be surprising since today we see people trying to manipulate the Bible to justify their beliefs about issues like abortion and homosexuality.

The Bible teaches that slavery, as well as other forms of domination of one person over another, is wrong. For example, Joseph was sold into slavery (Genesis 37), and the Egyptians oppressed the Israelites (Exodus 1). Neither these nor other descriptions of slavery in the Bible are presented in a favorable light.

The Old Testament law code made it a capital crime to kidnap a person and sell him into slavery (Ex. 21:16). It also commanded Israel to welcome a slave who escaped from his master and not be returned (Deut. 23:15-16).

Nevertheless, some pointed to other passages in the Old Testament to try to justify slavery. For example, those who needed financial assistance or needed protection could become indentured servants (Ex. 21:2-6; Deut. 15:12-18). But this was a voluntary act very different from the way slavery was

practiced in America. Also, a thief that could not or would not make restitution could be sold as a slave (Ex. 22:1-3), but the servitude would cease when restitution had been made.

In the New Testament, we see that Paul wrote how slaves (and masters) were to act toward one another (Eph. 6:5-9; Col. 3:22-25, 4:1; 1 Tim. 6:1-2). Since nearly half of the population of Rome were slaves, it is understandable that he would address their attitudes and actions. Paul was hardly endorsing the Roman system of slavery.

Paul's letter to Philemon encouraged him to welcome back his slave Onesimus (who had now become a Christian). Christian tradition says that the slave owner did welcome him back as a Christian brother and gave him his freedom. Onesimus later became the bishop of Berea.

It is also true that many of the leaders of the abolition movement were Christians who worked to abolish slavery from America. Lyman Beecher, Harriet Beecher Stowe, William Lloyd Garrison, and Charles Finney are just a few of the 19th century leaders of the abolition movement. Finney, for example, not only preached salvation but called for the elimination of slavery. He said, "I had made up my mind on the question of slavery, and was exceedingly anxious to arouse public attention to the subject. In my prayers and preaching, I so often alluded to slavery, and denounced it." [\[13\]](#)

Slavery is a sad and tragic chapter in American history, and we must confront it honestly. But the way the subject of slavery is taught in America's classrooms today often leaves out many important facts. I encourage you to study more about this nation's history. Our founders have much to teach us about history, government, and morality.
