

Be WHAT?

Be not afraid, be strong, be not discouraged, be anxious for nothing, be transformed. How are we supposed to obey God's seemingly impossible commands?

During a recent sermon, our pastor was teaching through Jesus' healing of a leper, who threw himself on Jesus' mercy and implored Him:

"Lord, if You are willing, You can make me clean."

And He stretched out His hand and touched him, saying, "I am willing; be cleansed." And immediately the leprosy left him. (Luke 5:13)

I was struck by Jesus' command, "Be cleansed."

Huh?

How does a leper, afflicted by an incurable disease that isolated him so terribly, just . . . "be cleansed"?

How does one obey a command like that?

Further, how does one obey similar seemingly impossible commands, such as:

- Be not afraid.
- Be strong.
- Be not discouraged.
- Be anxious for nothing.
- Be transformed.

It makes me smile to think about the one answer that all these "Be _____" commands have in common:

We can't do it. Jesus wasn't kidding when he said in John 15:5, "I am the vine, you are the branches. If you abide in Me and I abide in you, you will bear much fruit. Apart from Me

you can do nothing.”

What we CAN do, *all* we can do, is to open ourselves up to the grace and power of God, giving Him access to ourselves, and inviting Him to do the work, to make the changes.

How was the leper cleansed? Jesus took his leprosy into Himself, I think, exchanging His health and “leprosy-freeness” for the man’s horrible sickness. Jesus’ holiness and perfection destroyed the leprosy the way bleach destroys mold and mildew. The point is, Jesus did it.

“Be Not Afraid”

I understand there are 365 commands to “be not afraid” in the Bible, one for each day of the year. When we are beset by fear, how can we stop being afraid? How do we just turn it off?

We can’t. But Jesus can.

Just as He reassured Joshua in entering the Promised Land that He was with him and would never leave him or forsake him (Joshua 1:5), Jesus promised us before leaving earth to go back to heaven, “I will be with you always, even to the end of the age.” (Matthew 28:20)

The last two medical procedures I had done, I was scared. I was so scared I was literally shaking. I couldn’t turn off the fear, but I could (and did) remind myself that Jesus was with me, He had me, He was in charge and taking care of me. That’s what I focused on, and that’s what shrank the fear.

I get that; as a mother, when my young kids were scared, I would reassure them with, “I’m here, I’m here, Mommy’s here with you.”

“Be Strong”

As a polio survivor whose entire left leg was originally

paralyzed and has been very weak my whole life, I can truly appreciate the apparent craziness of this command. It's like my brain telling my frail and lame leg, "Hey! Be strong!" Ain't gonna happen! So why would God give us this command?

We see the full story in Ephesians 6:10, which literally says, "[B]e being strengthened in the Lord and in the strength of His power." The verb is present passive imperative, which means we are told to move out of the driver's seat and let the Lord drive. Let Him be strong in us; let Him pour the power of His might into and through us.

It's like allowing ourselves to be hooked up to a "Jesus IV" so that His power and strength flows into our veins.

It's like buckling ourselves into an airplane seat, sitting back, listening to the mighty jet engines roar to life, and allowing the pilot to hurtle us down the runway, gaining speed, until the plane takes off and we are soaring through the skies. Somebody else does all the work.

The way to "be strong" is actually to be strengthened by a power and force not our own, by receiving and trusting in God's strength and not trying to be strong in our own strength.

"Be Not Discouraged"

This command is often paired with the command to not be afraid, which makes sense. In the Old Testament, God linked His command to "be not discouraged" with the powerful promise of His presence and power for His people. Since God is not only powerful but also sovereign—He has everything under control and will work everything together for our good if we love Him and are called according to His purpose, Romans 8:28—we can jettison discouragement and be encouraged.

I love this passage in 2 Chronicles 32:7—

“Be strong and courageous. Do not be afraid or discouraged because of the king of Assyria and the vast army with him, for there is a greater power with us than with him.” I’m pretty sure the apostle John had this in mind when he wrote in the New Testament, “Greater is He who is in you than he who is in the world (meaning Satan).”

And how encouraged was the prophet Elisha’s servant who “had risen early and gone out, behold, an army with horses and chariots was circling the city. And his servant said to him, “Alas, my master! What shall we do?”

So he answered, “Do not fear, for those who are with us are more than those who are with them.”

Then Elisha prayed and said, “O LORD, I pray, open his eyes that he may see.” And the LORD opened the servant’s eyes and he saw; and behold, the mountain was full of horses and chariots of fire all around Elisha. (2 Kings 6:15-17)

We can choose to be encouraged over discouragement if we remember that there is a spiritual reality in the heavenly realms that our physical eyes can’t see, another reason to trust God.

“Be Anxious for Nothing”

The twin terrorists of anxiety and depression have a chokehold on many people today, especially in the wake of the pandemic. Yet we are told in Philippians 4:6 to “be anxious for nothing.” I’m so glad there is a comma and not a period after the word *nothing*, because the antidote for anxiety is right there in the text: “but in everything, by prayer and supplication with thanksgiving, let your requests be made known to God. And the peace of God, which surpasses all understanding, will guard your hearts and your minds in Christ Jesus.”

I think Paul had meditated on his friends’ notes of the Sermon

on the Mount, where Jesus challenged His audience's worry about the basics of life in Matthew 7:25-34. His perspective was to trust His Father, who cared far more for people made in His image than lesser parts of His creation that He also cared for.

The antidote for anxiety is to tell God what we're concerned about, but not to stop there: also focus on and deepen our understanding of just how loving, kind and generous the Father is toward us.

Wise people have defined anxiety as "fear of loss." When we focus on and trust in God instead of the things we are afraid of losing, the anxiety will shrink.

"Be Transformed"

Romans 12:2 says to "be transformed by the renewing of our minds." We can't transform ourselves, we need to give God permission to change us from the inside out. It really starts with recognizing the need to BE transformed in the first place, with the humility that begins to see how much we fall short of Jesus' command to "Be perfect, as your Father in heaven is perfect" (Matthew 5:48).

Oh look, there's another "Be _____" command! Be perfect! Yikes! How can we do that?

By being transformed.

How do we do *that*?

By asking for it. By inviting the Holy Spirit to make us like Jesus and His Father. By responding with repentance when He convicts us of sin and righteousness, which is His job (John 16:8). By "taking off" the old thinking habits and behaviors that are displeasing to God, and "putting on" the new habits and behaviors that align with the heart and character of God—which we learn about as we get to know Him in His word.

And we take off and put on with the Spirit's empowering, not our own efforts.

There's an important thread to obeying all these "Be ____" commands: God does the work in us, with our cooperation, as we surrender and submit to Him.

Philippians 2:13 tells us that God is at work in us, both to will and to work for His good pleasure. He gives us "the want-to and the can-do." He's the one who enables us to live out His commands to "Be ____."

The Christian life is a supernatural life! God does the work, we get the blessings!

Glorious Morning Glories

This is what love looks like.

My husband planted morning glories for me on our back fence because they are my favorite.

I love that a whole new batch of brand new blooms pops out each morning, day after day of fresh beauty that reminds me of Lamentations 3:23, that God's mercies are "new every morning—great is Your faithfulness!"

This year, we had to wait long into the fall for the flowers. The green foliage was crazy lush and full for months, but there were no gorgeous "blue happies," as I think of them, until late October.

Finally they started exploding daily with beauty and color. Not long afterwards, an unseasonable cold snap hit us, and the green foliage started to wither and dry up.

But the "blue happies" kept popping out!

I had to smile at what was happening on our fence, because it was a powerful illustration of what it's like for me to grow older. The green leaves were getting old and spent and dry and yucky, at the same time that every morning, there were still fresh and new morning glory blooms sprouting out. What a picture of what has become my new life verse, 2 Corinthians 4:16-18—

Therefore we do not lose heart, but ***though our outer man is decaying, yet our inner man is being renewed day by day.*** For momentary, light affliction is producing for us an eternal weight of glory far beyond all comparison, while we look not at the things which are seen, but at the things which are not seen; for the things which are seen are temporal, but the things which are not seen are eternal.

My body is growing older and weaker, especially ravaged by the lingering effects of polio. Not long ago, I spent almost two years [unable to walk](#) at all because of severe arthritis in both hips. (The Lord has restored so very much to me on the other side of two [hip replacements](#)!) I'm able to walk and stand without pain these days, for which I give thanks every single day, but the march of time continues and, like everyone else, I'm going downhill physically.

But—the glorious but!—on the inside I get to be fresh and new every day! Just like the “blue happies”! As I walk in faithfulness with the Lord, seeking to abide in Him and allow the beauty and character of Christlikeness to flow into and through me, He keeps bringing renewed energy and joy to my soul. Every day! I love it!

The hope for us as believers, especially older believers, is that we get to be renewed daily with the radiance and vibrancy and joy of Jesus within that keeps getting better and better the older we get!

In fact, the Bible even speaks about our transformation as a special kind of glory: 2 Corinthians 3:17-18 says,

Now the Lord is the Spirit, and where the Spirit of the Lord is, there is freedom. And we all, who with unveiled faces contemplate the Lord’s glory, are being transformed into his image with ever-increasing glory, which comes from the Lord, who is the Spirit.

I LOVE being transformed, a little bit every day, into the image of Jesus, with ever-increasing glory! I get to be a spiritual morning glory!

Want It To Go Well With You?

When our sons were young, one of their favorite Golden Books was *Tootle the Train*. It was the story of a baby train who was in school to learn to be a Flyer, but he kept jumping off the track to go play in the meadow. It took all the people in the town working together to convince him that a train needs to “stay on the rails no matter what.”

For a short while in the book, Tootle buys into the lie that life can be found in the meadow, racing horses and making daisy chains among the buttercups. But if you’re a train and you go off the rails, you don’t have a good time playing in the meadow—you get stuck in the dirt! Ever heard the phrase “train wreck”? It’s what happens when a train doesn’t “stay on the rails no matter what.”

Trains weren’t made to run on grass, they were made to run on rails. Staying on the rails is the only way Tootle could be the train he was designed to be.

This book reminds me that God’s truth and precepts are like the rails on which a good life runs. God *wants* us to have good lives! Six times in the book of Deuteronomy, God tells us that the reason He wants us to obey His commands is *that it may go well with us*:

Deuteronomy 4:40 “So you shall keep His statutes and His commandments which I am giving you today, **that it may go well with you** and with your children after you, and that you may live long on the land which the LORD your God is giving you for all time.”

Deuteronomy 5:16 “Honor your father and your mother, as the LORD your God has commanded you, that your days may be prolonged and **that it may go well with you** on the land which

the LORD your God gives you.”

Deuteronomy 5:33 “You shall walk in all the way which the LORD your God has commanded you, that you may live and **that it may be well with you**, and that you may prolong your days in the land which you will possess.”

Deuteronomy 6:3 “O Israel, you should listen and be careful to do it, **that it may be well with you** and that you may multiply greatly, just as the LORD, the God of your fathers, has promised you, in a land flowing with milk and honey.”

Deuteronomy 6:18 “You shall do what is right and good in the sight of the LORD, **that it may be well with you** and that you may go in and possess the good land which the LORD swore to give your fathers,”

Deuteronomy 12:28 “Be careful to listen to all these words which I command you, so **that it may be well with you** and your sons after you forever, for you will be doing what is good and right in the sight of the LORD your God.”

Do you want it to “be well with you”? Of course you do! We all do!

There’s only one way, and that is to live our lives according to God’s plan and design and purpose for us. And there’s only way to do that: to read and study His word so we can learn His plan and design and purpose for us. There are no shortcuts.

Researchers have determined that when people read their Bibles at least four times a week, life change happens. That’s the tipping point.

Do you want it to go well with you this next year? How about opening your Bible—or Bible app—and reading God’s word at least four times a week?

Bible.org offers several Bible reading plans:
[bible.org/Daily_Bible_Reading_Plans](https://www.bible.org/Daily_Bible_Reading_Plans)

Or you can jump on board at Join the Journey as we go “rim to rim,” Genesis to Revelation, this year: www.jointhejourney.com

Let’s go . . . so it will go well with you.

Into the Void: The Coming Transhuman Transformation

In the TV show *The Six Million Dollar Man*, Lee Majors played Steven Austin, a crippled astronaut who was rehabilitated through bionic technology that gave him superhuman strength and powers. The show, like so much science fiction, presents us with the dream that technology will enhance all our facilities from sight to memory, hearing to strength, and lengthen our life span to boot. The bionic man represents a fictional forerunner of the transhuman transformation. The Transhumanist school believes that technology will not only enhance the human condition, but eventually conquer death and grant us immortality. Human enhancement technology performs wonders in allowing the lame to walk, the blind to see, the deaf to hear and the sick to be well, but even immortality is out of the reach of technology. In striving to enhance our physical existence we may lose our souls in the process.

In his famous book, *The Abolition of Man* published in the 1940s, C. S. Lewis wrote that modern society is one step away from “the void”^{1}—“post-humanity,”^{2} a state of existence

from which there will be no return. Lewis argues that when we step outside of what he calls the Tao^{3}, we lose all sense of value for human life that has always governed civilization. What Lewis calls the Tao, we might call Natural Law or Traditional Morality—that internal moral understanding of right and wrong which God has written on the hearts of all people (Romans 2), the *Logos* by which all things were created (John 1, see especially verse 4).^{4}

In leaving traditional spiritual values behind, Lewis argues, modern technological civilization has reduced human value to only what is natural, and we have lost our spiritual quality. Modern society has striven to conquer nature and largely succeeded, but at a great cost—with each new conquest, more losses in human dignity, more of the human spark extinguished. Lewis offers the example of eugenics from his time in the 1930's and 40's.^{5} Eugenics is now a debunked science of racial manipulation and something we know was practiced with particular ferocity in Nazi Germany.^{6} But the driving philosophy of manipulating nature and humanity into something new and final remains prominent. Lewis underestimated the truth of his own prophecy. He thought that maybe in 10,000 years the final leap will be taken when mankind will solidify itself into some kind of inert power structure dominated by science and technology.^{7}

However, the 21st century may prove to be the era of posthumanity that Lewis foresaw in his time. The current movement of transhumanism, or human enhancement, asserts that humanity will eventually achieve a new form as a species through its adaption to modern computer technology and genetic engineering in order to reach a higher evolutionary condition. Our present state is not final. Transhumanism derives from Darwinian doctrine regarding the evolution of our species. Evolutionary forces demand that a species adapt to its environment or become extinct. On this view, many species experience a pseudo-extinction in which their adaptation gives

way to another kind of species leaving its old form behind. Many evolutionists believe this happened to the dinosaurs on their way to becoming modern birds and that humanity faces the same transformation on its way up a higher evolutionary path.[\[8\]](#) Primates evolved into humans so humans will eventually evolve into something higher (posthuman).

Metaman

Our present condition will give way to the cyborg (which is short for cybernetic organism) as we join our bodies and minds to technological progress. Transhumanists believe that because Artificial Intelligence (computing power) advances at such a rapid pace, it will eventually exceed human intelligence and humanity will need to employ genetic engineering to modify our bodies to keep pace or become extinct. Therefore, the cyborg condition represents humanity's inevitable destiny.

The two predominant pillars in transhumanism revolve around Artificial Intelligence (AI) and genetic engineering. One represents a biological change through manipulating genes. The other presents the merging of human intelligence with AI. The biological position (through use of genetic engineering) claims that through transference of genes between species, we eradicate the differences and create a global superorganism that encompasses both kinds of life—the natural and the artificial. Biophysicist Gregory Stock states that once humanity begins to tamper with its genetic code, and the codes of all other plants and animal species, that “the definition of ‘human’ begins to drift.”[\[9\]](#) Through genetic engineering we will transform the human condition by merging humanity with the rest of nature, thereby creating a planetary superorganism. A superorganism operates like a bee hive or an anthill as a collection of individual organisms united as a living creature. Stock calls this Metaman, the joining of all biological creatures with machines, making one giant planetary life form. This superorganism encompasses the entire globe.

Transhumanism presupposes that no distinction exists between humanity, nature or machines. Metaman includes humanity, all it creates, and also the natural world. It acknowledges humanity's key role in the creation of farms and cities, but includes all natural elements, such as forests, jungles and weather. Metaman includes humanity and goes beyond it.^{10} Stock envisions a greater role for genetic engineering in redefining biological life as different species are crossed. Humanity may now control the direction of its evolution and that of the entire planet.

Stock states that through "conscious design" humanity has replaced the evolutionary process.^{11} This leads us to Post-Darwinism where people have supplanted the natural order with their own technological modification of humanity and the entire ecological system. "Life, having evolved a being that internalizes the process of natural selection, has finally transcended that process."^{12} Humanity may now, through the agency of technological progress, seize direction of its development and guide it to wherever it wants itself to go. No other species has ever controlled its own destiny as we do.

The Singularity

A second transhumanist belief argues for the arrival of an eventual technological threshold that will be reached through the advancement of Artificial Intelligence. The argument goes like this: because AI develops at a rapid pace it will achieve equality with the human brain and eventually surpass it. Estimates as to when this will happen range from the 2020's to 2045. The evolutionary process will reach a crescendo sometime in the 21st century in an event transhumanists call "the Singularity."^{13} There will be a sudden transformation of consciousness and loss of all distinction, or Singularity, between humanity and its creations, or the absence of boundaries between the natural and artificial world. Singularity watchers expect that this event will mark the

ultimate merging of humans and machines. Renowned inventor and AI prophet Ray Kurzweil states, “The Singularity will allow us to transcend these limitations of our biological bodies and brains. . . . There will be no distinction, post-Singularity, between human and machine. . . .”[\[14\]](#)As the fictional CEO and mastermind behind a cutting edge AI company in the year 2088 crowed, “My goal is for us to end death as we know it on earth within 50 years—for the essence of every person to live perpetually in an uploaded state. . . . The transhuman age has dawned.”[\[15\]](#)

Both of these positions, one emanating from genetic engineering that seeks to enhance the body, the other from Artificial Intelligence that seeks to supersede and even supplant the need for bodies, argue for the eventual replacement of humanity with biological-machine hybrids. Metaman and Singularity systems are direct heirs of the modern idea of progress. They present the dawning of a technological Millennium, but they also share a long history dating back into medieval Christendom. In the early Church, technology, or the “mechanical arts,” was never considered as a means to salvation or Edenic restoration. Historian David Noble argues that from Charlemagne to the early Early Modern period technology became associated with transcendence as the means of restoring the lost divine image or *imago dei*.[\[16\]](#)

Theologian Ernst Benz argues similarly that the Modern technological project was founded on a theological notion in which humanity believed itself to be the fellow worker with God in establishing His kingdom on earth through reversing the effects of the Fall.[\[17\]](#) We are fellow workers with God; however, this position overemphasized humanity’s role in restoration to the point of becoming a works-based salvation of creation.

Despite the apparent secularity of the super science behind all the technological wonders of our time, the notions of modern progress and transhumanism remain grounded in an

aberrant form of Christian theology. Noble summarizes this well when he states, “For modern technology and modern faith are neither complements nor opposites, nor do they represent succeeding stages of human development. They are merged, and always have been, the technological enterprise being, at the same time, an essentially religious endeavor.”^{18} The theology behind Modern technological progress remains rooted in Medieval and Early Modern notions of earthly redemption when the “useful arts,”^{19} which ranged anywhere from improved agricultural methods to windmills, were invested with redemptive qualities and humanity began to assume an elevated status over nature. “In theological terms, this exalted stance vis-à-vis nature represented a forceful reassertion of an early core Christian belief in the possibility of mankind’s recovery of its original God-likeness, the ‘image-likeness of man to God’ from Genesis (1:26), which had been impaired by sin and forfeited with the Fall.”^{20} Technology becomes the means of restoring the original divine image. Technological development was expected to reverse the effects of the Fall and restore original perfection. This theology also serves as the impetus behind Millennial thought which believes technology helps humanity recover from the Fall and leads to an earthly paradise. Transhumanism extends this Millennial belief into the twenty-first century.

Redeeming Technology

We are faced with the problem of how to redeem all the advances of technology such as human enhancement without losing ourselves in the process. Idolatry preoccupies our central concern with technology. Biblically speaking, idolatry exalts the work of humanity, including individual human beings, over God; we commit idolatry when we serve the creature rather than the Creator. “Professing to be wise, [we] became fools, and exchanged the glory of the incorruptible God for an image in the form of corruptible man and of birds and four-footed animals and crawling creatures” (Rom. 1:22-23).

Theologian Paul Tillich offers a keen and insightful definition of idolatry when he states, “Idolatry is the elevation of a preliminary concern to ultimacy. Something essentially partial is boosted into universality, and something essentially finite is given infinite existence.”[\[21\]](#) Transhumanism presents us with a spiritualization of technology believed to grant us immortality through shedding our bodies and adopting machine ones or through genetic engineering that will prolong bodily life indefinitely. Our Modern age defines technology as a source of material redemption by placing finite technical means into a divine position, thus committing idolatry.

In seeking to reconcile technology with a biblical theology we have three possible approaches. *Technophobia* represents the first position. This view contends that we should fear technological innovation and attempt to destroy it. The Unabomber Manifesto offers the most radical, pessimistic and violent expression of this position, arguing for a violent attack against the elites of technological civilization such as computer scientists in an effort to return society to primitive and natural conditions in hopes of escaping the kind of future transhumanists expect.[\[22\]](#) However, the entire tenor of our times moves in the opposite direction, that of *technophilism*, or the inordinate love for technology. Transhumanism optimistically believes that through technological innovation we will restore our God-like image. A third position asserts a mediating role between over-zealous optimism and radical morose pessimism. [\[23\]](#)

Technocriticism

Technocriticism offers the only viable theological position. By understanding technology as a modern form of idolatry we are able to place it in a proper perspective. Technocriticism does not accept the advances of innovation and all the benefits new technology offers without critical dialogue and

reflection. Technocriticism warns us that with every new invention a price must be paid. Progress is not free. With the invention of the automobile came air pollution, traffic and accidents. Computers make data more accessible, but we also suffer from information overload and a free-flow of harmful material. Cell phones enhance communication, but also operate as an electric leash, making inaccessibility virtually impossible. Examples of the negative effects of any technology can be multiplied if we cared enough to think through all the implications of progress. Technocriticism does not allow us the luxury of remaining blissfully unaware of the possible negative consequences and limitations of new inventions. This approach is essential because it demonstrates the fallibility of all technological progress and removes its divine status.

Technocriticism humanizes technology. We assert nothing more than the idea that technology expresses human nature. Technology is us! Technology suffers the same faults and failures that plague human nature. Technology is not a means of restoring our lost divine image or reasserting our rightful place over nature. This amounts to a works-based salvation and leads to dangerous utopian and millennial delusions that amount to one group imposing its grandiose vision of the perfect society on the rest. Such ideologies include Marxism, Technological Utopianism and now Transhumanism. We are restored to the divine "image of His Son" by grace through faith alone (Rom. 8:29). Technology, serving as an extension of ourselves, means that what we create will bear our likeness, both as the image-bearers of God and in sinful human identity. It contains both positive and negative consequences that only patient wisdom can sort through.

Through criticism we limit the hold technology has on our minds and free ourselves from its demands. We use technology but do not ascribe salvific powers of redemption to it. A critical approach becomes even more crucial the further we advance in the fields of genetic engineering and AI. We do not

know where these fields will lead and an uncritical approach that accepts them simply because it is possible to do so appears dangerous. We live under the delusion that technology frees us, but as Lewis warns, “At the moment, then, of Man’s victory over Nature, we find the whole human race subjected to some individual men, and those individuals subjected to that in themselves which is purely ‘natural’—to their irrational impulses.”[\[24\]](#) The famous science-fiction writer Frank Herbert echoes Lewis’s sentiments in his epic novel *Dune*: “Once men turned their thinking over to machines in the hope that this would set them free. But that only permitted other men with machines to enslave them.”[\[25\]](#) Genetic engineering or merging humanity with AI only exchanges one condition for another. We will not reach the glorified condition transhumanists anticipate. A responsible critical approach will ask, Into whose image are we transforming?

Watching Transformation Happen

Last week I was privileged to attend the annual [Exodus Conference](#) along with a thousand people coming out of homosexuality, as well as some family members and people like myself who minister to them. Nothing has built my faith in the power and the loving heart of our life-changing God like my decade-long involvement in this kind of ministry.

I got to experience the power of answered prayer as I stood in worship with a divorced couple whom I have known online for several years but met at the conference. The husband had gone AWOL for the past year, choosing to pursue his feelings instead of his identity as a beloved child of His Father. He told me “something” kept drawing him back into the light: with a smile, I told him that Jesus has His hook in his heart because he belongs to Jesus! And there he was, reconnecting with his God and his wife in worship and the beauty of repentance.

I got to hear the testimony of a beloved young woman, deeply wounded, whom I have watched soften and become so much like her Jesus over the past several years. As we were singing the words “Sin had left a crimson stain, He washed it white as snow,” she suddenly and violently experienced the memory of being a sexually abused five-year-old, sitting in the tub with blood everywhere. In the pain of that moment, the Father met her there with the same words He had spoken to [Sy Rogers](#), that evening’s speaker, about his sexual abuse: “Daddy sees, and Daddy’s sorry.” As His compassionate love washed over her, healing came.

And I got to see actual physical transformation in a dear lady with whom I have been walking out her repentance from lesbianism. As she has dared to believe that God really means

everything in His word, especially about His love for her and how He sees her as a precious, beautiful, beloved daughter, change has come. She has gone to great lengths to drink in her Abba's love in intimate ways (and has taught me what that can look like in the process). Halfway through the week, she caught a glimpse of herself in a plate glass window and was amazed to realize that her posture had changed: she was walking more upright and confidently, assured that she was "a real person" (her words). At the end of the week, she said she believed the change in her was permanent and lasting. She finally feels solid, not hollow. That's the power of God's healing love.

And that's why it is such a joyful privilege for me to serve people whose thorn in the flesh is unwanted same-sex attractions. As their SSA drives them to Jesus, transformation happens.

And it is beautiful.
